Chad International Monetary Fund. African Dept.,2025-08-13 Chad continues to face significant humanitarian climate and security shocks in a context where oil revenues and official development aid are at risk Following the expiration of the former Extended Credit Facility ECF in June 2024 and the closing of the political transition in February 2025 the authorities have requested a new arrangement under the ECF to address the country s protracted balance of payments needs and support their reform efforts to achieve macroeconomic stability and high and inclusive growth Given inherent fragilities and heightened regional and global uncertainty the authorities see a new Fund supported program as a policy anchor and as a catalyst They are committed to prudent management of public finances and to lift development outcomes and spur diversification

Mapping Power Navroz K. Dubash,2018-08-22 Electricity is critical to enabling India s economic growth and providing a better future for its citizens In spite of several decades of reform the Indian electricity sector is unable to provide high quality and affordable electricity for all and grapples with the challenge of poor financial and operational performance To understand why Mapping Power provides the most comprehensive analysis of the political economy of electricity in India s states With chapters on fifteen states by scholars of state politics and electricity this volume maps the political and economic forces that constrain and shape decisions in electricity distribution Contrary to conventional wisdom it concludes that attempts to depoliticize the sector are misplaced and could worsen outcomes Instead it suggests that a historically grounded political economy analysis helps understand the past and devise reforms to simultaneously improve sectoral outcomes and generate political rewards These arguments have implications for the challenges facing India s electricity future including providing electricity to all implementing government reform schemes and successfully managing the rise of renewable energy
