Royal Commission on the Militia and Volunteers,1904      *INSIDE THE ENIGMA* Michael Hughes,1997-07-01 The twentieth century has been fundamentally shaped by changes in Russia where disaster in the First World War was followed by the fall of the Tsar Nicholas II s replacement first by Kerensky s liberal government then by the Bolsheviks and the subsequent Civil War and foreign intervention led to the erection of a system of state tyranny previously unthought of The Bolshevik regime with its ideological hatred of other regimes was a threat to the west where developments in Russia were watched with both horror and fascination Britain s information about this series of extraordinary events and about what might be about to happen next was largely dependent on the small number of British officials mainly diplomats posted in Russia Inside the Enigma gives us a view from an unusual and privileged angle of the history of Russia between the turn of the century and the beginning of the Second World War The discomforts and privations suffered by British officials were matched by their frustration Impenetrable Tsarist court intrigue was replaced by a wall of disinformation and suspicion after the Bolshevik seizure of power Nevertheless what they saw and reported makes remarkable reading      **Technical Papers** ,1953      *The Official History of the UK Strategic Nuclear Deterrent* Matthew Jones,2017-05-12 Volume I of The Official History of the UK Strategic Nuclear Deterrent provides an authoritative and in depth examination of the British government s strategic nuclear policy from 1945 to 1964 Written with full access to the UK documentary record this volume examines how British governments after 1945 tried to build and then maintain an independent nationally controlled strategic nuclear capability and the debates this provoked in official circles Against a background of evolving British ideas about

deterrence during the Cold War it focuses on the strategic political and diplomatic considerations that compelled governments in the face of ever increasing pressures on the defence budget to persist in their efforts to develop nuclear weapons and to deploy a credible nuclear force as the age of the manned bomber gave way to the ballistic missile Particular attention is given to controversies over the portion of the defence budget devoted to the deterrent programme the effects of the restoration of Anglo American nuclear collaboration after 1958 increasing reliance on the United States for nuclear delivery systems the negotiations that led to the Nassau Agreement of 1962 and the supply of Polaris and discussions within the Western Alliance over the control of nuclear forces By the time of the October 1964 election when this volume concludes previous dismissal of the prospects for successful ballistic missile defence were giving way to growing doubts over the long term effectiveness of the Polaris system in its role as an independent deterrent several years before it was due to enter service with the Royal Navy This book will be of much interest to students of British politics Cold War history nuclear proliferation and international relations
