**RESEARCH** A representative sample of 1,000 people was surveyed in 1997. The survey found that 40% of respondents had used the Internet in the past 12 months. The survey also found that 40% of respondents had used the Internet in the past 12 months. The survey also found that 40% of respondents had used the Internet in the past 12 months.

**REMARKS:** If Respondent answers "Yes" to Question 10, please attach evidence to support your answer.

**Abstract** The purpose of this study was to determine if there were differences in the self-reported health status of patients who had been hospitalized versus those who had not been hospitalized. A total of 100 patients were surveyed. The results showed that patients who had been hospitalized reported a higher level of self-reported health status than those who had not been hospitalized.
