similarities between these two towering Jewish intellectual pillars Using concepts of esoteric literature from the Torah and later texts this book analyses their ideas on concealing and revealing to gain a renewed perspective on Freud's view of dreams Throughout Szajnberg articulates the challenges of reading translated works and how we can address the pitfalls in such translations The book is a vital read for psychoanalysts in training and practice as well as those interested in Judaica the history of ideas and early medieval studies The Discourse of Character Education Peter Smagorinsky, Joel

Taxel, 2005-05-06 In this book Peter Smagorinsky and Joel Taxel analyze the ways in which the perennial issue of character education has been articulated in the United States both historically and in the current character education movement that began in earnest in the 1990s The goal is to uncover the ideological nature of different conceptions of character education The authors show how the current discourses are a continuation of discourse streams through which character education and the national purpose have been debated for hundreds of years most recently in what are known as the Culture Wars the intense often passionate debates about morality culture and values carried out by politicians religious groups social policy foundations and a wide range of political commentators and citizens in which the various stakeholders have sought influence over a wide range of social and economic issues including education The centerpiece is a discourse analysis of proposals funded by the United States Department of Education's Office of Educational Research and Improvement OERI Discourse profiles from sets of states that exhibit two distinct conceptions of character are examined and the documents from particular states are placed in dialogue with the OERI Request for Proposals One profile reflects the dominant perspective promoted in the U S based on an authoritarian view in which young people are indoctrinated into the value system of presumably virtuous adults through didactic instruction The other reflects the well established yet currently marginal discourse emphasizing attention to the whole environment in which character is developed and enacted and in which reflection on morality rather than didactic instruction in morality is the primary instructional approach By focusing on these two distinct regions and their conceptions of character the authors situate the character education movement at the turn of the twenty first century in the context of historical notions about the nature of character and regional conceptions regarding the nature of societal organization This enlightening volume is relevant to scholars practitioners policymakers and students across the field of education particularly those involved in character education moral development discourse analysis history and cultural foundations of education and related fields and to the wider public interested in character education **Negative**

Aesthetics and Political Collapse in Eastern European and Balkan Cinema Zoran Samardzija, 2025-07-18 Negative Aesthetics and Political Collapse in Eastern European and Balkan Cinema examines the theme of political collapse in select contemporary Eastern European and Balkan art cinema and documentaries from the late eighties to the present Engaging with debates in Marxism and contemporary film theory about political aesthetics the book centers around the question of whether we can imagine possible futures through negative aesthetics which are skeptical of cinema's ability to reproduce

reality in a comprehensive and unmediated manner In particular it analyzes examples of ambiguous art cinema and related hybrid documentary modes in order to invite spectators to rethink how we understand and represent the unique experiences of living through the collapse of authoritarian communism and the transition to neoliberal capitalism *Negative Aesthetics and Political Collapse* ultimately argues that the skepticism about political change and representing history found in these films forms an original mode of utopian thinking In other words their negativity about their own artistic autonomy is the very thing that allows them to hint at possible futures that are unrepresentable because they exist outside of the frameworks of contemporary geopolitics and our dominant understandings of cinematic aesthetics Redefining how we understand the intersections between geopolitics art cinema aesthetics and film theory the book presents a unique synthesis of film and political theory that attempts a new understanding of cinematic aesthetics As such it will interest scholars of film theory global art cinema aesthetics regional studies of Eastern Europe and the Balkans and political science

Concentrationary Imaginaries Griselda Pollock, Max Silverman, 2015-11-30 In 1945 French political prisoners returning from the concentration camps of Germany coined the phrase the concentrationary universe to describe the camps as a terrible political experiment in the destruction of the human This book shows how the unacknowledged legacy of a totalitarian mentality has seeped into the deepest recesses of everyday popular culture It asks if the concentrationary now infests our cultural imaginary normalizing what was once considered horrific and exceptional by transforming into entertainment violations of human life Drawing on the political philosophy of Hannah Arendt and the analyses of violence by Agamben Virilio Lacoue Labarthe and Nancy it also offers close readings of films by Cavani and Haneke that identify and critically expose such an imaginary and hence contest its lingering force

Heart Speaks unto Heart Jan Kłos, 2021-08-09 Both Newman and Stein present a mature response to the challenges of their eras In like manner they reflect splendid examples of genuine persons in the grip of disrupting cultural trends They show the primacy of

individual conscience and the importance of individual integrity even at the expense of social ostracism and extermination Newman and Stein are outstanding witnesses of individual freedom vis vis social and political systems This book uniquely combines the biographies of these two figures in order to show that no matter what kind of circumstances we may live in loyalty to one s own self is the most significant part of life In a penetrating account of Newman and Edith Stein Jan K os explores the spirituality of two saints each of them speaking to our time By explorations of their life and work the author provides a wealth of insights for the twenty first century At once sensitive and learned Jan K os s *Heart Speaks unto Heart* is a volume to be treasured and read again Prof Andrew Breeze Universidad de Navarra Spain In this profound and stimulating study K os invites the reader to think not so much about Newman and Stein as with them and thus join them in their unique but mutually illuminating efforts to make sense of their faith their times still very much our times themselves and ultimately the mystery of the truth in whose grasp they both lived and died In translating Newman s work Stein discovered herself in communion with him *Heart Speaks unto Heart* beautifully explores this communion and in doing so shows us why it matters Prof Paul Wojda University of St Thomas U S A **School of the Air of the Americas ...** Columbia Broadcasting System, Inc. Department of Education,1941 **The Attack of the Blob** Hanna Fenichel Pitkin,2021-02-16 The European intellectual Hannah Arendt worried about the tendency of social structures to take on a life of their own and paralyze individual action Pitkin is determined to trace our problems to the actions of individuals This book is thus a battle of wits A vivid sketch of the conflict between two basic outlooks Library Journal O ne leaves this book feeling enriched and challenged Pitkin prompts us to rethink our understanding of Arendt and to demythologize the pervasive sense of political helplessness Arendt herself sought so hard to articulate A cause for celebration Peter Baehr Times Literary Supplement Arendt is certainly among the most original and outstanding political theorists of the twentieth century It is difficult to imagine a hostile critic examining more effectively than Pitkin Arendt s concept of the social for hostility would inhibit the acquisition of the mastery of Arendt s texts that Pitkin displays at every turn Peter Berkowitz New Republic
