Globalization and Social Inequality John Chidubem Nwaogaidu,2013 Globalization tends to promote global homogenization of cultures but its integration processes and interaction systems are hampered by unequal participation governed by the ethos of capitalism This ethos promotes instead individual interests against societal interests As the danger of individualism increasingly constitutes a fundamental community burden it significantly compromises the nation state threatening the social formation and relational outcomes Therefore socially integrated societies with collective initiatives managed by interventionist public institutions with regulative mechanisms and good governance have more potential for equitable development and economic growth This book examines the impact of globalization and social inequality through an analysis of the impact on society in Nigeria Series Sociology Soziologie Vol 80   **Handbook of Microemulsion Science and Technology** Promod Kumar,K.L. Mittal,1999-07-21 Demonstrating methods for overcoming stability issues in paints wax dispersions cosmetics food products and other industrial applications this reference probes theoretical and practical issues surrounding microemulsion science and technology Featuring the work of 51 international experts and containing almost 1000 instructive tables equations and illustrations this book reviews the performance of and prospects for experimental methods such as X ray diffraction transmission electron microscopy TEM light scattering small angle neutron scattering

viscosimetry and nuclear magnetic resonance NMR to characterize various aspects of the dispersed phase of microemulsions

Education Reforms in Ghana G. M. Osei,2010 The decision to undertake this research was a pragmatic response to the debates which followed the introduction of a new innovative secondary education system in Ghana This book investigates the innovation during its formation since 1974 inception from 1987 and in respect of field research aspects of its operation from 1998 to 2002 The primary aim of the research was to monitor the implementation processes in as many aspects as possible This was done in order to see what benefits might be gained and what lessons in order to continue the innovation In order to conduct this assessment it was necessary to examine critically the characteristics of each element of the reform and their implications using a variety of research methods to generate relevant data This approach yielded a substantial amount of original evidence on the dynamics of educational change While this evaluation specifically helps to deepen understanding of the said innovation it also makes a contribution to the literature on educational innovation in developing countries

Harvest of research outcomes to confirm achievement of the millennium development goals Simeon O. Jekayinfa,2017-09-15 In 2000 the leaders of member states of the United Nations adopted the Millennium Declaration which set out a series of clear commitments goals and targets to achieve Human Development These ambitious goals were subsequently refined into eight Millennium Development Goals MDGs designed to provide a framework for accountability donor coordination and resource mobilization The MDGs are Eradicate extreme poverty and hunger achieve universal primary education promote gender equality and empower women reduce child mortality improve maternal health combat HIV AIDS malaria and other diseases ensure environmental sustainability and develop a global partnership for development The first seven of these Goals are concerned with outcomes identifying the progress towards certain standards of human well being and decent living which should be achieved globally and nationally by 2015 The eighth Goal is concerned with relationships identifying various aspects of a global partnership for development which must be forged to support the realization of these poverty reduction human development and environmental sustainability standards The MDGs provide opportunities to start working from real life development problems Addressing these problems requires multidisciplinary approaches that combine the natural sciences the life sciences and technical approaches with social science approaches The challenge is to integrate social economic political and institutional concerns into research strategy To be able to achieve this there is a need to establish a linking pin between research policy and practice in Nigeria The aim of such a linking pin would be to synthesize research outcomes on specific MDGrelated topics and to translate these into implications for policy and decision making through easily accessible gathering where individual stakeholders can air their views The articles contained in this book address research outcomes from stakeholders Sociologists Economists Agronomists Agricultural Engineers Civil Engineers Environmental Scientists and Engineers Geographers Geologists Microbiologists Medical Practitioners Policy Makers Educationists etc to confirm achievement of Millennium Development Goals in Nigeria and other neighboring
