Lewis,Kenneth Sherr,2022-03-18 Prose Award Finalist for Nursing and Allied Health Services Category Awarded First Place in the AJN 2022 Book of the Year Awards in the Community Public Health Category Practical Implementation Science Moving Evidence Into Action provides the ideal text for a master s level implementation science course It fills an important gap by focusing on building skills among trainees whose careers will focus more on implementation practice than research and prepares them to partner with scientists to enhance effective implementation in public health and health systems Most importantly my students feel that the book is helping make a topic that can be experienced as complex very accessible Donna Shelley MD MPH Professor Dept Public Health Policy and Management Director Global Center for Implementation Science

NYU School of Global Public Health Practical Implementation Science is designed for graduate health professional and advanced undergraduate students who want to master the steps of using implementation science to improve public health. Engaging and accessible, this textbook demonstrates how to implement evidence-based practices effectively through use of relevant theories, frameworks, models, tools, and research findings. Additional real-world case studies across public health, global health, and health policy provide essential context to the major issues facing implementation domestically and globally, with consideration of communities in low to middle income countries (LMIC). The textbook is organized around the steps involved in planning, executing, and evaluating implementation efforts to improve health outcomes in communities. Coverage spans assessing the knowledge-practice gap, selecting an evidence-based practice (EBP) to reduce the gap, assessing EBP fit, and adapting the EBP, assessing barriers and facilitators of implementation, engaging stakeholders, creating an implementation structure, implementing the EBP, and evaluating the EBP effort. Each chapter includes a how-to approach to conducting the task at hand. The text also addresses the practical importance of implementation science through disseminating EBPs, scaling up EBPs, sustaining EBPs, and deimplementing practices that are no longer effective. All chapters include learning objectives and summaries with emphasized Key Points for Practice, Common Pitfalls in Practice, and discussion questions to direct learning and classroom discussion. Fit for students of public health, health policy, nursing, medicine, mental health, behavioral health, allied health, and social work, Practical Implementation Science seeks to bridge the gap from scientific evidence to effective practice. Key Features: Soup to Nuts Approach: Distills the steps to selecting, adapting, implementing, evaluating, scaling up, and sustaining evidence-based practices. Expert Insight: Editors and chapter authors bring years of experience from leading implementation programs and interventions. Multidisciplinary Focus: Utilizes cases and research findings relevant to students of public health, medicine, nursing, mental health, behavioral health, and social work. Case Studies and Real World Examples: Blends frameworks, models, and tools with real-world examples for students interested in both domestic and global health. eBook Access: Included with print purchase for use on most mobile devices or computers. Instructor's Packet: Complete with an Instructor's Manual, PowerPoint slides, and a Sample Syllabus.
