

Quiz & Worksheet - The Core Principles of American Government

1. Congress recently voted on a law that would allow the retroactive principle of increased taxation. The president vetoed the bill, but was eventually overruled by a 2/3 majority of Congress. In the end, the Supreme Court declared the bill unconstitutional. Why is this an example of the separation of powers?

- ☐ Because it demonstrates that the checks and balances system allows the legislative and judiciary branches to hold only the president accountable.
- ☐ Because it shows the limitations on the federal government that prevent it from implementing legislation without reaching into the authority of the states.
- ☐ Because any time the president is overruled by Congress it is a clear example that the president is stepping over his authority, making it the duty of Congress to overrule his veto.
- ☐ Because it is a clear example that there are three distinct branches of government, each with its own distinct purpose and function.

2. Which core principle states that the government operates only with the people's consent and authority?

- ☐ Checks and balances
- ☐ Federalism
- ☐ Limited government
- ☐ Popular sovereignty

3. Congress recently voted on a law that would allow the implementation of harsher sentences for people working in the NSA who disclose confidential information. The president vetoed the bill, but was eventually overruled by a 2/3 majority of Congress. In the end, the Supreme Court declared the bill unconstitutional. The actions taken by the Supreme Court are an example of ____.

- ☐ federal investigation
- ☐ checks and balances
- ☐ unconstitutional behavior
- ☐ legislative oversight
