The Soul of a University Chris Brink, 2018-07-01 What is the role of a university in society In this innovative book Chris Brink offers the timely reminder that it should have social purpose as well as achieve academic excellence The current obsession with rankings and league tables has perpetuated inequality and is preventing social mobility This book shows how universities can and should respond to societal challenges and promote positive social change

The Financialization of Agri-Food Systems Hilde Bjorkhaug, André Magnan, Geoffrey Lawrence, 2018-10-09 Financialization is the increased influence of financial actors and logics on social and economic life and is one of the key drivers transforming food systems and rural economies around the world The premise of this book is that the actions of financial actors and their financial logics are transforming agri food systems in profound ways It is shown that although financialization is a powerful dynamic some recent developments suggest that the rollout of financialization is contradictory and uneven in different spaces and markets The book examines cases in which state regulation or re regulation and social movement resistance are setting roadblocks or speed bumps in the path of financialization resulting in a cooling off of investment as well as the other side of the argument where there is evidence of a heating up The authors address not only the limits to financialization but also the mechanisms through which financial entities are able to penetrate and re shape agri food industries This book provides both a comparative analysis of financialization blending and empirical findings with conceptual insights It explores the connection between financialization food systems and rural transformation by critically examining the concept of financialization and how food and farming are being financialized the impacts of financialization in the food industry and financialization in farming and forestry along with the impacts this has on rural people and communities This is a timely book bringing together concrete case studies from around the globe to reveal the operations and impacts of finance capital in the space of agri food

On Unemployment Mark R. Reiff, 2015-10-07 With unemployment at historically high rates that show signs of becoming structural there is a pressing need for an in depth exploration of this economic injustice Unemployment is one of the problems most likely to put critical pressure on our political institutions disrupt the social fabric of our way of life and even threaten the continuation of liberalism itself Despite the obvious importance of the problem of unemployment however there has been a curious lack of attention paid to this issue by contemporary non Marxist political philosophers On Unemployment explores the moral implications of the problem of unemployment despite the continuing uncertainty involving both its causes and its cures Reiff takes up a series of questions

about the nature of unemployment and what justice has to tell us about what we should do if anything to alleviate it The book comprehensively discusses the related theory and suggests how we might implement these more general observations in the real world It addresses the politics of unemployment and the extent to which opposition to some or all of the book's various proposals stem not from empirical disagreements about the best solutions but from more basic moral disagreements about whether the reduction of unemployment is indeed an appropriate moral goal This exciting new text will be essential for scholars and readers across business economics and finance as well as politics philosophy and sociology

Making College Work Harry J. Holzer, Sandy Baum, 2017-08-15 Practical solutions for improving higher education opportunities for disadvantaged students Too many disadvantaged college students in America do not complete their coursework or receive any college credential while others earn degrees or certificates with little labor market value Large numbers of these students also struggle to pay for college and some incur debts that they have difficulty repaying The authors provide a new review of the causes of these problems and offer promising policy solutions The circumstances affecting disadvantaged students stem both from issues on the individual side such as weak academic preparation and financial pressures and from institutional failures Low income students disproportionately attend schools that are underfunded and have weak performance incentives contributing to unsatisfactory outcomes for many students Some solutions including better financial aid or academic supports target individual students Other solutions such as stronger linkages between coursework and the labor market and more structured paths through the curriculum are aimed at institutional reforms All students and particularly those from disadvantaged backgrounds also need better and varied pathways both to college and directly to the job market beginning in high school We can improve college outcomes but must also acknowledge that we must make hard choices and face difficult tradeoffs in the process While no single policy is guaranteed to greatly improve college and career outcomes implementing a number of evidence based policies and programs together has the potential to improve these outcomes substantially

Using interviews with women from diverse backgrounds Dabrowski makes an invaluable contribution to the debates around the gendered politics of austerity in the UK Exploring the symbiotic relationship between the state s legitimization of austerity and women s everyday experiences she reveals how unjust policies are produced how alternatives are silenced and highlights the different ways in which women are used or blamed By understanding austerity as more than simply an economic project this book fills important gaps in existing knowledge on state gender and class relations in the context of UK austerity Austerity Women and the Role of the State is shortlisted for the 2021 BSA Philip Abrams Memorial Prize The

Great Music City Andrea Baker, 2019-03-01 In the 1960s as gentrification took hold of New York City Jane Jacobs predicted that the city would become the true player in the global system Indeed in the 21st century more meaningful comparisons can be made between cities than between nations and states Based on case studies of Melbourne Austin and Berlin this book is the first in depth study to combine academic and industry analysis of the music cities phenomenon Using four distinctly defined algorithms as benchmarks it interrogates Richard Florida s creative cities thesis and applies a much needed synergy of urban sociology and musicology to the concept mediated by a journalism lens Building on seminal work by Robert Park Lewis Mumford and Jane Jacobs it argues that journalists are the cultural branders and street theorists whose ethnographic approach offers critical insights into the urban sociability of music activity *America Ascendant* Stanley B.

Greenberg, 2015-11-03 America is poised to lead the 21st Century as it led the 20th That will happen because the country is at a tipping point in the battle for its own renewal a renewal that will allow America to be exceptional again Our economy is on the move fueled by revolutions in energy immigration innovation big data and advanced manufacturing America s energy independence has set off shockwaves Just as important are the social transformations that are making the country ever more

racially and culturally diverse younger a home to immigrants and the metropolitan centers that foster a rising economic and cultural dynamism While most other countries struggle profoundly with immigration and religious and racial differences America s on a path to multicultural identity Those revolutions in the economy society and culture and are also producing a new American majority that embraces new values and new politics Republicans are waging a counter revolution and that is why America looks gridlocked and why the country is turning to Democrats to take on the country s growing challenges The economic and social transformations leave people struggling to earn enough and reach the middle class Families are under stress Government is corrupted by big money The American public is demanding the country address the dark side of our progress and reforms are starting to happen That is why Democrats will get to lead an era of reform and renewal comparable to the progressive era that mitigated the excesses of the Industrial Revolution In this incisive book expert strategist Greenberg draws on years of research and polling to illuminate how America is far from being gridlocked and he articulates a powerful vision of how American politics and America can be renewed

The Complacent Class Tyler Cowen, 2017-02-28 A Wall Street Journal and Washington Post Bestseller Tyler Cowen's blog Marginal Revolution is the first thing I read every morning And his brilliant new book The Complacent Class has been on my nightstand after I devoured it in one sitting I am at round the

clock Cowen saturation right now Malcolm Gladwell Since Alexis de Tocqueville restlessness has been accepted as a signature American trait Our willingness to move take risks and adapt to change have produced a dynamic economy and a tradition of innovation from Ben Franklin to Steve Jobs The problem according to legendary blogger economist and best selling author Tyler Cowen is that Americans today have broken from this tradition we re working harder than ever to avoid change We re moving residences less marrying people more like ourselves and choosing our music and our mates based on algorithms that wall us off from anything that might be too new or too different Match com matches us in love Spotify and Pandora match us in music Facebook matches us to just about everything else Of course this matching culture brings tremendous positives music we like partners who make us happy neighbors who want the same things We re more comfortable But according to Cowen there are significant collateral downsides attending this comfort among them heightened inequality and segregation and decreased incentives to innovate and create The Complacent Class argues that this cannot go on forever We are postponing change due to our near sightedness and extreme desire for comfort but ultimately this will make change when it comes harder The forces unleashed by the Great Stagnation will eventually lead to a major fiscal and budgetary crisis impossibly expensive rentals for our most attractive cities worsening of residential segregation and a decline in our work ethic The only way to avoid this difficult future is for Americans to force themselves out of their comfortable slumber to embrace their restless tradition again

Doom Niall Ferguson,2021-05-04 All disasters are in some sense man made Setting the annus horribilis of 2020 in historical perspective Niall Ferguson explains why we are getting worse not better at handling disasters Disasters are inherently hard to predict Pandemics like earthquakes wildfires financial crises and wars are not normally distributed there is no cycle of history to help us anticipate the next catastrophe But when disaster strikes we ought to be better prepared than the Romans were when Vesuvius erupted or medieval Italians when the Black Death struck We have science on our side after all Yet in 2020 the responses of many developed countries including the United States to a new virus from China were badly bungled Why Why did only a few Asian countries learn the right lessons from SARS and MERS While populist leaders certainly performed poorly in the face of the COVID 19 pandemic Niall Ferguson argues that more profound pathologies were at work pathologies already visible in our responses to earlier disasters In books going back nearly twenty years including *Colossus* *The Great Degeneration* and *The Square and the Tower* Ferguson has studied the foibles of modern America from imperial hubris to bureaucratic sclerosis and online fragmentation Drawing from multiple disciplines including economics cliodynamics and network science *Doom* offers not just a history but a general theory of disasters showing why our ever more bureaucratic and complex systems are getting worse at handling them *Doom* is the lesson of history that this country indeed the West as a whole urgently needs to learn if we want to handle the next crisis better and to avoid the ultimate doom of irreversible decline

Australia's Refugee Politics in the 21st Century Kim Huynh,2023-06-23 Boat arrivals have defined and divided 21st century Australia This book

examines the Stop the Boats era from between the 2013 and 2022 federal elections During this time the dominant political view has been that to accept a single boat family or person is to risk being overwhelmed by many others It follows that government must do whatever it takes to command Australia s borders and deter unauthorized arrivals that is Stop the Boats This book sets out the key political events and arguments for and against Australia s assurance that anyone who comes without permission will never be able to stay It examines the impact of this commitment on regional and international relations on those who seek refuge in Australia and on those who call it home This volume serves as a valuable political history and analysis for scholars policymakers students journalists and anyone who is interested in questions of contemporary exclusion and belonging

The Bloomsbury Handbook of Rural Education in the United States Amy Price Azano, Karen Eppley, Catharine Biddle, 2021-09-09 This handbook begins with a foundational overview of rural education examining the ways in which definitions histories policies and demographic changes influence rural schools This foundational approach includes how corporatization population changes poverty and the role of data affect everyday learning in rural schools In following sections the contributors consider how school closures charter schools and district governance influence decision making in rural schooling while also examining the influence of these structures on higher education attainment rural school partnerships and school leadership They explore curriculum studies in rural education including place based and trauma informed pedagogies rural literacies rural stereotype threat and achievement Finally they engage with issues of identity and equity in rural schools by providing an overview of the literature related to diverse populations in rural places including Indigenous Black and Latinx communities and exceptional learners Importantly this handbook applies theoretical tools to rural classroom experiences demonstrating the potential of work centered at the intersection of theory rurality and classroom practice Each section concludes with a response by an international scholar situating the topics covered within the broader global context
