20mpumalanga Life Scince September Paper:

South African Journal of Science ,2004 *Market-Led Agrarian Reform* Saturnino Borrás Jr.,Cristóbal Kay,Edward Lahiff,2013-09-13 Three fourths of the world's poor are rural poor Most of the rural poor remain dependent on land based livelihoods for their incomes and reproduction despite significant livelihood diversification in recent years Land issue remains critical to any development discourse today Market led agrarian reform MLAR has gained prominence since the early 1990s as an alternative to state led land reforms This neoliberal policy is based on the inversion of what its proponents see as the features of earlier approaches and calls for redistribution via privatized decentralized transactions between willing sellers and willing buyers Its proponents especially those associated with the World Bank have claimed success where the policy has been implemented but such claims have been contested by independent scholars as well as by peasant movements who are struggling to gain access to land This book presents three thematic papers and six country studies The thematic papers address issues of formalisation of property rights gendered land rights and neoliberal enclosure These studies demonstrate the pervasive influence of neoliberal ideas on property rights and rural development debates well beyond the core question of land redistribution The country cases bring together experiences from Brazil Guatemala El Salvador Philippines South Africa and Egypt Common findings include the success of landowners in minimising the impact of reform and a lack of post transfer support translating into marginal impact on poverty The limitations of the market led approach and the implications of the studies presented here for the future of agrarian reform are considered in the editors introduction This book was a special issue of *The Third World Quarterly* **Annual report** South Africa.
