20report To Congress On Chinas Wto Compliance:

Report to Congress of the U.S.-China Economic and Security Review Commission U.S.-China Economic and Security Review Commission,2004 China's Implementation of the Rulings of the World Trade Organization Weihuan Zhou,2019-10-03 Amid the ongoing crisis surrounding the WTO China's role and behaviour in the multilateral trading system has attracted overwhelming attention This timely monograph provides the first comprehensive and systemic analysis of China's compliance with the rulings of the WTO's dispute settlement mechanism DSM It covers all the disputes in which China has been a respondent during its 17 year WTO membership and offers a detailed discussion of China's implementation of adverse WTO rulings its approaches to settling WTO disputes the possible explanations for such approaches and post compliance issues The book shows how China has utilised the limitations and flexibilities of WTO rulings to ensure that its implementation of the rulings not only delivers adequate compliance but also maintains its own interests Overall this book argues that the issues relating to the quality of China's compliance and post compliance practices concern the loopholes within the DSM itself which may be utilised by all WTO Members However despite the loopholes China's record of compliance suggests that the DSM has been largely effective in inducing compliance and influencing domestic policy making It is therefore in the interest of all WTO Members and other stakeholders to protect the DSM as the crown jewel of the multilateral trading system **2010 Report to Congress of the U.S.-China Economic and Security Review Commission** U.S.-China Economic and Security Review Commission,2010 *American Grand Strategy from Obama to Trump* Zeno Leoni,2021-03-01 This book maintains that the theory of imperialism should incorporate the concept of an operational code of political elites to account for agencies actions This concept would explain the strategic continuity and tactical change in US grand strategy from Obama to Trump While both presidents pursued a strategy of off shore balancing their competing worldviews led to tangible differences in the way they sought to restore American power after Bush and to contain the rise of China This book offers an important contribution after the departure of Bush concluded the 21st century debate on imperialism at a time when an increasingly post American world order has undermined the end of the state thesis Indeed over the last twelve years US grand strategy has emphasized inter state competition rather than the annihilation of rogue regimes These events require renewed efforts for the theory of imperialism to contribute to Globalisation Theory at this crucial historical junction **China and Global Trade Governance** Ka Zeng,Wei Liang,2013-12-13 China's historic accession to the World Trade Organization WTO in November 2001 not only represents an important milestone in the country's transition to a market economy and integration into the global economy but is also among the most important events in the history of the WTO and the multilateral trading system China and Global Trade Governance China's First Decade in the World Trade Organization provides us with some fresh empirical data to assess the country's behaviour in the liberal international economic regime Such an assessment is both timely and necessary as it can help us better understand China's

role in the evolving structure of global economic governance in addition to shedding light on the broader debate about the implications of the rise of China for the international system Through a thorough examination of China's WTO compliance record and its experience in multilateral trade negotiations this book seeks to better understand the sources of constraints on China's behaviour in the multilateral trade institution as well as the country's influence on the efficacy of the World Trade Organization In doing so this project speaks directly to the following questions raised by China's unprecedented ascent in the international system Is China a rule maker rule follower or rule breaker in international regimes Is Beijing a responsible stakeholder capable of making positive contributions to global trade governance in the long term

The Future of Trade

David A. Gantz, Tony Payan, 2023-12-11 This critical book assesses the current trade policy challenges facing the US and offers a series of recommendations which if implemented have the potential to improve both US domestic trade policy and international foreign policy Focusing on the reform of the WTO the implementation of the United States Mexico Canada Agreement and the continuing rivalry between the US and China *The Future of Trade* crucially advances the ongoing dialogue between US governments and stakeholders

China's Banking Law and the National Treatment of Foreign-Funded Banks Wei Wang, 2016-05-23 This book assesses new developments in and reform of China's banking law system following its accession of the WTO It focuses on the relationship between GATS WTO national treatment obligations and China's banking law Tracing the history of national treatment in China the book compares the treatment of foreign funded banks with the treatment of Chinese funded banks and examines the structure and shortcomings of the existing banking law framework in China Offering suggestions as to how the framework could be restructured and analysing the economic and political bases of an integrated banking law framework the book argues that reorganization would bring about greater consistency with GATS WTO national treatment requirements The book also explores the ambiguous definition of prudential carve out the subtle relationship between GATS national treatment and market access based on WTO cases national treatment clauses in China's bilateral investment treaties and special treatment on banking in China's free trade agreements This volume is a valuable resource for academics and students as well as professionals and policy makers working in the field of banking WTO Chinese law and foreign trade

Understanding Threats to Space Systems and Space Assets Jakub Pražák, 2025-09-09 This book explores the current space threat profile in an increasingly contested congested and competitive space environment This work looks at the conflictual nature of space relations and highlights various issues resulting from great power competition in the space domain This book recognizes non state entities increased engagement in this domain including their different roles and consequently incorporates commercial actors into space strategic thinking It also discusses the perils of the space environment political conflicts space weapons malicious space operations and the risks stemming from potentially hazardous dual use technology Finally this book outlines the means to improve the protection of space systems with an emphasis on the inclusion of a broad spectrum of stakeholders and offers

arguments for the establishment of new norms to strengthen the responsible use of outer space This book will be of much interest to students of space power security studies and international relations

Economic Policy of the People's Republic of China Barbara Darimont, 2023-01-01 This book deals with the current economic policy of the People's Republic of China In addition to a brief overview of economic history since its founding and discussions of economic models an overview of both the forms of business and the Chinese labor market is provided The book pays particular attention to the development of China's e-commerce sector Equally significant are China's environmental issues against the backdrop of the climate crisis Without innovations for example in energy production and waste management the Chinese economy will hardly be able to continue growing Therefore one focus of the book is on economic policy in the environmental sector Finally foreign policy including the Silk Road Initiative is examined The aim of this book is to highlight the above developments It is aimed at laypersons involved in the business of China as well as first year students who want an overview of economic policy institutions and current developments

The Rise and Decline of the Post-Cold War International Order Hanns W. Maull, 2018-10-25 This book surveys the evolution of the international order in the quarter century since the end of the Cold War through the prism of developments in key regional and functional parts of the liberal international order 2010 and the roles played by two key ordering powers the United States and the People's Republic of China Among the partial orders analysed in the individual chapters are the regions of Europe the Middle East and East Asia and the international regimes dealing with international trade climate change nuclear weapons cyber space and international public health emergencies such as SARS and ZIKA To assess developments in these various segments of the LIO 2010 and to relate them to developments in the two other crucial levels of political order order within nation states and at the global level the volume develops a comprehensive integrated framework of analysis that allows systematic comparison of developments across boundaries between segments and different levels of the international order Using this framework the book presents a holistic assessment of the trajectory of the international order over the last decades the rise decline and demise of the LIO 2010 and causes of the dangerous erosion of international order over the last decade

Trade Wars Nils Ole Oermann, Hans-Jürgen Wolff, 2022-11-03 This book explores the causes and instruments of 500 years of armed and non armed international trade conflicts Nils Ole Oermann and Hans Jürgen Wolff draw on decades of experience to examine trade wars economic sanctions and different types of economic warfare investigating their history ethics economic driving forces and legality under current rules They provide a clear and accessible account of the economics of trade of trade and financial policy since the nineteenth century and of the effectiveness of sanctions and the winnability of trade wars The book also describes the transformation of economic warfare since 1989 namely in cyberspace and in the world financial system and shows how China's rise challenges the Western model of democracy and free market economies The authors conclude with a plea for improved economic statecraft and an overhaul of the current trading regime

Between Market Economy and State Capitalism Henry

Gao, Weihuan Zhou, 2022-11-24 The WTO provides tools to address China's state capitalism and should be the preferred forum for negotiations on SOEs and industrial subsidies *China's Foreign Investment Law in the New Normal* Shen Wei, 2022-12-29 This book analyzes China's new foreign investment law which came into force in January 2020. The new law implemented sweeping changes and overhauled China's foreign investment law regime of the last four decades. The foreign investment law aims to make the business environment more investor friendly and address some of the contentious issues between US and China in the ongoing trade war. The book explains how the law enhances regulatory transparency. It also outlines the new approval process that is the pre-establishment negative list system which has replaced the former approval system for foreign investment projects. The book also analyzes China's series of anti-sanction laws. This book will help give readers a better understanding of major changes and benefits under the new law and will be the first of its kind looking at the implications of this important law. Global Governance and China Scott Kennedy, 2017-09-18 This volume offers systematic analysis of China's growing engagement in global governance institutions over the past three decades. During this period China has gone from outsider to observer to insider. The volume is based on studies of Chinese involvement in a wide cross section of regimes including trade, finance, intellectual property rights, foreign aid, and climate change. The contributions show that China's participation in global governance reflects the mutually interactive processes of China's own socialization into the global community and the simultaneous adaptation of global institutions and actors to China's growing activism. Both China and the international system are internally complex. Hence Chinese engagement varies across economic regimes, yielding different results in terms of Chinese compliance, its influence on regimes, and the extent of cooperation and conflict in addressing challenges in international society. The chapters reveal that China is neither purely a savior nor scofflaw of the global economic system and while China is a defender of the status quo in some areas it is a reformer in others and occasionally a revisionist in still other spheres. A detailed analysis of many areas of global governance, this volume will be essential reading for students and scholars of international relations, Chinese studies, and global governance. **Handbook on Human Rights in China** Sarah Biddulph, Joshua Rosenzweig, 2019 This Handbook gives a wide-ranging account of the theory and practice of human rights in China viewed against international standards and China's international engagements around human rights. The Handbook is organised into the following sections: contested meanings; international dimensions; economic and social rights; civil and political rights; rights in action; and access to justice; political dimensions of human rights in Greater China; and new frontiers. Ascending China and the Hegemonic United States Jörg Vogelmann, 2020-09-04 Jörg Vogelmann looks into one of the central political and economic relationships of the 21st century. The author finds Sino-US ties marked by strong, slightly asymmetric economic interdependence, a relatively fast economic power transition under way, as well as slow to moderate shifts in military power. He develops a neoliberal and a neorealist grand theory picture of Sino-US and international relations and empirically verifies these influential perspectives by analyzing post-Cold War Chinese and US

S foreign policies in the major flashpoints the Taiwan and the North Korea issue Despite and due to globalization ties between ascending China as a potential regional or once even global U S challenger and the hegemonic United States may likely continue to be marked by strategic power politics and will decisively affect trans and international relations
