Human Rights and Statistics Thomas B. Jabine, Richard Pierre Claude, 1992 *Violations* Judith Dueck *Examining Human Rights Issues and the Democracy Project in Sub-Saharan Africa* E. Ike Udogu, 2014-03-06 Sub Saharan Africa is experiencing an impressive measure of economic revivalism that is driven by both national and international forces at the beginning of the twenty first century That political and business leaders in the region are determined that development in this millennium will not mimic the slow pace of growth in the twentieth is a given Undoubtedly the rapid spread of information communications technology ICT and contemporary investments of China in the region s growth agenda bear this thesis out This book among other things advances the theory that improving human rights practices and the democracy project i e democratic consolidation in sub Saharan Africa will create an enabling environment that is critical for stimulating the current inspiring development objectives

Human Rights in Korea William Shaw, 2020-10-26 These chapters by eight Korea specialists present a new approach to human rights issues in Korea Instead of using an external and purely contemporary standard the authors work from within Korean history treating the successive phases of Korea s modern century to examine the uneasy fate of human rights and some of the ideas of human rights as they have developed in the Korean context Beginning with the Independence Club of the late nineteenth century and continuing through to the constitutional and judicial structures underlying the Sixth Republic Government of Roh Tae Woo in South Korea these papers illuminate the sometimes complex interactions between modern Korean human rights issues and the legacies of Korean culture and colonial occupation The final sections deal with the usefulness and appropriateness of U S policies toward human rights in South Korea and comparatively with the overall issues raised in the volume

U.S. Human Rights Policy and Review of the State Department's Country Reports on Human Rights Practices for 1989 United States. Congress. House. Committee on Foreign Affairs. Subcommittee on Human Rights and International Organizations, 1990 *Future U.S. Security Relationships with Iraq and Afghanistan* David E. Thaler, 2008 The greater the emphasis on building these capabilities now the faster indigenous air forces will be able to operate independently and the faster the operational demands on the U S Air Force will diminish

BOOK JACKET U.S.-Chinese Relations Robert G. Sutter, 2013-08-08 This lucid assessment of the historical and contemporary determinants of Sino American relations now comprehensively updated explains the conflicted engagement between the two governments Offering a welcome richness of discussion and analysis distinguished analyst Robert G Sutter explores the twists and turns of the relationship over the past two hundred years The mixed historical record convincingly shows that strong differences and mutual suspicions persist only partly overridden by a mutual pragmatism that shifts with circumstances Sutter judiciously considers the evolution and status of current areas of convergence and divergence in the relationship He identifies key domestic and international factors that have led to the current positive but fragile equilibrium and what is at stake for the respective interests of the United States and China and

for international stability As the only book on the subject that combines a unified assessment of the historical evolution contemporary status and likely prospects of U S Chinese relations this balanced and pragmatic study will be an essential resource for all concerned with the globe s most crucial bilateral partnership **Enslaved** Mirjam Van Reisen,2023-01-21 Eritrean refugees are being trafficked and enslaved in Libya where they are tortured to force relatives to pay a ransom for their release Labelled with a digital code they are moved along in the possession of the traffickers through a series of black holes in which their access to digital technologies and connectivity is highly controlled They are tortured abused extorted and subjected to sexual violence Many die along the way If they make it to the Mediterranean Sea they risk being intercepted and returned to Libya or dying at sea Over the period of this study 2017-21 it is conservatively estimated that at least 200 000 men women and children have fallen victim to human trafficking for ransom in Libya and the cumulative value of this trade for that period is estimated at over 1 billion USD This detailed ethnographic study identifies the routes modus operandi organisation and key actors involved in the human trafficking for ransom of refugees and migrants who are desperately in need of protection The book is part of the GAIC Research Network and African studies series published by Langa RPCIG and makes an important contribution to the literature on human trafficking migration studies African studies modern slavery social protection and governance *Dynamics of Human Rights in the US Foreign Policy* Sanjay Gupta,1998 The book revolves around the role of the US federal government in the protection and promotion of human rights at the global level A comparative analysis of human rights policy of different US Presidencies toward various regions of the world is analysed The book discusses the broad theoretical perspectives on human rights and goes on to trace the growth and development of human rights in the US foreign policy from the time of American Declaration of Independence of 1776 In particular it assesses the role of Jimmy Carter and Ronald Reagan in addressing the global human rights issues Besides the US policy toward the former Soviet Union China and Latin America has also been elaborately examined The US Declaration of Independence of 1776 together with the Bill of Rights of 1791 constitutes the bedrock of US commitment and dedication to human rights The great American statesmen Jefferson Lincoln Roosevelt and Carter rendered yeomen service to the cause of human rights both at home and the world at large However in practice the concern for human rights during the successive US administrations has not been consistent as there were occasions when the US gave greater weightage to strategic military relations and economic considerations than to human rights Besides there were instances when the US became a passive collaborator to human rights abuses committed by several of its allies particularly in Latin America and Asia Also there were certain Presidencies as Nixon and Reagan that gave more rhetorical speeches and statements on human rights with little follow up action On the whole the US human rights policy has been active assertive and dynamic and its application been region and situation specific State Organized Terror P. Knox Thames, 2024-09-01 Building on his extensive experience in the U S government and as an international human rights lawyer H Knox Thames provides fresh decisive strategies to advance religious freedom for all Today a scourge of religious persecution is impacting every faith community around the globe In **Ending Persecution Charting the Path to Global Religious Freedom** author H Knox Thames takes readers to some of the world's most repressive countries in the Middle East and Asia exposing the harsh reality of religious repression Thames breaks down the devastating litany of human rights abuses faced by religious groups in these countries into four major types of persecution terrorism in the Middle East government sponsored genocides in China and Burma cultural changes due to extremism in Pakistan and tyrannical democracy in Nepal and India **Ending Persecution**
