timely second edition has been fully updated to reflect Pupil Premium curriculum assessment and special needs reforms and can be used by individual practitioners as well as supporting a whole school or setting approach to spoken language. It includes whole class approaches to developing all children and young people's speaking and listening skills, catch up strategies for those with limited language, ways of differentiating the curriculum for those with difficulties, ways in which settings and schools can develop an effective partnership with specialists to help children with more severe needs, models schools can use to commission their own speech and language therapy services, examples of good practice in supporting parents/carers to develop their children's language skills, and answers to practitioners' most frequently asked questions about speech and language. Now in full colour, this practical and engaging book is for all who are concerned about how to help children and young people with limited language and communication skills: school leaders, teachers, early years practitioners, and the speech and language therapists they work with.

Fantasy Media in the Classroom Emily Dial-Driver, Sally Emmons, Jim Ford, 2014-01-10. A common misconception is that professors who use popular culture and fantasy in the classroom have abandoned the classics; yet in a variety of contexts—high school, college, freshman composition, senior seminars, literature, computer science, philosophy, and politics—fantasy materials can expand and enrich an established curriculum. The new essays in this book combine analyses of popular television shows including *Buffy the Vampire Slayer*, such films as *The Matrix*, *The Dark Knight*, and *Twilight*, *Watchmen*, and other graphic novels and video games with explanations of how best to use them in the classroom. With experience-based anecdotes and suggestions for curricula, this collection provides a valuable pedagogy of pop culture.

Positive Alternatives to Exclusion Paul Cooper, Mary Jane Drummond, Susan Hart, Jane Lovey, Colleen McLaughlin, 2013-04-03. Positive Alternatives to School Exclusion looks at what schools can do to build more harmonious communities and engage students, particularly those at risk of exclusion, more productively in all areas of school life. It describes the Positive Alternatives to School Exclusion Project, a multi-phase collaborative initiative based at the School of Education, University of Cambridge. Drawing on the perspectives of staff and pupils, the authors provide detailed case studies of the approaches and strategies being adopted in a variety of settings: primary, secondary, and FE, to foster inclusion and reduce and prevent exclusion. It also identifies a number of different frameworks drawn from the case studies which can be used by practitioners working in other settings to support their own reflection and development work. Particular importance is placed throughout the book on valuing the domain of personal experience in the life of the school community. The authors explore this theme in detail, suggesting ways in which it might become a priority focus of further development work in schools.
