postwar Japanese architecture and science fiction builds on the resurgence of interest in Metabolist architecture while establishing new directions for exploration Gardner focuses on how these innovators created unique versions of shared concepts including futurity megastructures capsules and cybercities making lasting contributions that resonate with contemporary conversations around cyberpunk climate change anime and more The Metabolist Imagination features original documentation of collaborations between giants of postwar Japanese art and architecture such as the landmark 1970 Osaka Expo It also provides the most sustained English language discussion to date of the work of Komatsu Saky considered one of the big three authors of postwar Japanese science fiction These studies are underscored by Gardner s insightful approach treating architecture as a form of speculative fiction while positioning science fiction as an intervention into urban design making it a necessary read for today s visionaries

**Locating Heisei in Japanese Fiction and Film** Marc Yamada, 2019-10-29 This book provides the first interdisciplinary examination of the popular fiction and film of the lost decades of Japan s Heisei period 1989 2019 Presenting original analysis of major Heisei writers filmmakers and manga artists the chapters examine the work of Urasawa Naoki Kurosawa Kiyoshi Murakami Haruki and Shinkai Makoto among others Through the work of these cultural figures the book also explores the struggle to define the history of Heisei three decades of economic stagnation social malaise and natural disaster In particular it explores the dissonance between the dominant history of Japan s recent past and the representation of this past in the popular imagination of the period In so doing this book argues that traumatic events from the years leading up to Heisei complicate the narration of a cohesive sense of history for the period requiring works of fiction and film to explore new connections to the past Incorporating literary and film theory to assess the works of culture *Locating Heisei in Japanese Fiction and Film* will be useful to students and scholars of Japanese culture society and history *Focus On: 100 Most Popular American Autobiographers* Wikipedia contributors,

**Drawing on Tradition** Jolyon Baraka Thomas, 2012-10-31 Manga and anime illustrated serial novels and animated films are highly influential Japanese entertainment media that boast tremendous domestic consumption as well as worldwide distribution and an international audience *Drawing on Tradition* examines religious aspects of the culture of manga and anime production and consumption through a methodological synthesis of

narrative and visual analysis history and ethnography Rather than merely describing the incidence of religions such as Buddhism or Shinto in these media Jolyon Baraka Thomas shows that authors and audiences create and re create religious frames of mind through their imaginative and ritualized interactions with illustrated worlds Manga and anime therefore not only contribute to familiarity with traditional religious doctrines and imagery but also allow authors directors and audiences to modify and elaborate upon such traditional tropes sometimes creating hitherto unforeseen religious ideas and practices The book takes play seriously by highlighting these recursive relationships between recreation and religion emphasizing throughout the double sense of play as entertainment and play as adulteration i e the whimsical or parodic representation of religious figures doctrines and imagery Building on recent developments in academic studies of manga and anime as well as on recent advances in the study of religion as related to art and film Thomas demonstrates that the specific aesthetic qualities and industrial dispositions of manga and anime invite practices of rendition and reception that can and do influence the ways that religious institutions and lay authors have attempted to captivate new audiences Drawing on Tradition will appeal to both the dilettante and the specialist Fans and self professed otaku will find an engaging academic perspective on often overlooked facets of the media and culture of manga and anime while scholars and students of religion will discover a fresh approach to the complicated relationships between religion and visual media religion and quotidian practice and the putative differences between traditional and new religions *Visions of the Future in Comics* Francesco-Alessio

Ursini,Adnan Mahmutovic, Frank Bramlett, 2017-09-11 Across generations and genres comics have imagined different views of the future from unattainable utopias to worrisome dystopias These presaging narratives can be read as reflections of their authors and readers hopes fears and beliefs about the present This collection of new essays explores the creative processes in comics production that bring plausible futures to the page The contributors investigate portrayals in different stylistic traditions manga bande desinees from a variety of theoretical perspectives The picture that emerges documents the elaborate storylines and complex universes comics creators have been crafting for decades *Japanese Media at the Beginning of the 21st Century* Katsuyuki Hidaka, 2016-12-01 Hailed by Japanese critics as a milestone in the study of contemporary Japanese media this book explores the contemporary boom in Japanese media representations of the recent past Recent years have seen the production of an unprecedented number of films animation manga and television programmes representing a deeply nostalgic longing for the Japanese heyday of high economic growth in the 1960s and occasionally the 1970s known in Japan as the Sh wa 30s and 40s Hidaka provides a comprehensive account of an under researched contemporary Japanese media phenomenon by exploring why this nostalgia has been sparked at this particular historical juncture and how that period is represented in the Japanese media today The book accomplishes this through a detailed textual and narrative analysis of representative films and television programmes in relation to their social and cultural context While these nostalgic media renderings are seen by many critics as innocuous this study demonstrates that

they do not show a simple yearning for the period but reflects a growing discontent with Japanese post war society In this regard this book concludes that the current nostalgia wave is a critical reaction to the recent past as it seeks to revise historiography through a processes of introspection within popular conceptions of the meta narrative of nostalgia Winner of the Japan Communication Association 2015 Outstanding Book Award *Revue de la Bibliothèque nationale de France* ,2007
