

1988 CADILLAC ELDORADO AND SEVILLE SERVICE INFORMATION

FOREWORD

This service manual has been prepared to aid in servicing 1988 model Cadillac Eldorados and Sevilles. It is intended primarily for servicemen who are familiar with earlier model Cadillacs and Cadillac Service Bulletins. It includes complete information on service procedures and specifications specific to 1988 Cadillac Eldorado and Seville cars except body service information which is covered in the 1988 Body Service Manual.

All information, illustrations and specifications contained in this Manual are based on the latest product information available at the time of publication. The right is reserved to make changes at any time without notice. Refer to Cadillac Serviceman Bulletins for updated information.

When reference is made in this manual to a brand name, number or specific tool, an equivalent product may be used in place of the recommended item.

NOTICE: Eldorado and Seville parts are primarily dimensioned in the metric system. It is important to note that, during any maintenance procedure, replacement fasteners must have the same measurements and strength as those removed, whether metric or customary. (Numbers on the heads of metric bolts and on surfaces of metric nuts indicate their strength. Customary bolts use radial lines for this purpose, while most customary nuts do not have strength markings.) Mismatched or incorrect fasteners can result in car damage or malfunction, or possible personal injury. Therefore, fasteners removed from the car should be saved for re-use in the same locations whenever possible. Where the fasteners are not satisfactory for re-use, care should be taken to select a replacement that matches the original. For information, see section 0A.
