Corporate Governance Mechanisms and Firm Performance Shveta Singh,Monika Singla,2022-05-12 This book begins by analysing the various corporate governance mechanisms explored in the extant literature and determining their effectiveness in enhancing the firm value using multivariate analysis The findings are of global relevance as the corporate governance regulations of most countries focus on independent directors as the mainstay of good governance The empirical evidence from the first objective of this study corroborates the claim that independent directors do not strengthen the firms governance quality The book is one of the few works to have analysed the possible reasons behind the ineffectiveness of the independent directors Also in view of the famous concept of the bundle of governance mechanisms it might be possible that the independent directors strengthen the firms governance quality indirectly by strengthening other governance mechanisms This aspect too has little precedence This study adopts a novel moderation and mediation approach to analyse the monitoring behaviour of independent directors in relation to other governance mechanisms The work is a must read for corporate players as well as researchers and scholars studying this discipline

An Insight into Mergers and Acquisitions Vinod Kumar,Priti Sharma,2019-06-18 This book provides an insight in the phenomenon of Mergers and Acquisitions M A including the various forms of corporate restructuring It highlights the importance of M A as a strategy for faster growth in the corporate The book provides an enriched experience of the art of valuation with detailed description of M A process deal structuring and financing The book also provides the broader perspective of Accounting and Regulatory aspects of M A While covering the conceptual

underpinnings of M A the book supplements it with real life examples on each sub topic with various numeric examples Thus the judicious blend of theory and practical aspects through numerical as well as real life case studies make the book a source of vast knowledge in the complicated and dynamic world of M A
