Ethical Theory Russ Shafer-Landau, 2007-07-30 In presenting this reader on ethical theory Shafer Landau philosophy U of Wisconsin has made sure to cover the standard topics of the day consequentialism deontology contractarianism and virtue ethics but has also sought to include areas that are less common in sections on moral standing moral responsibility moral knowledge and works that question the very possibility of systematic ethics He also includes a section that discusses ethics and religion and another that examines prima facie duties and particularism Rather than include critics views following the various theoretical presentations he has instead decided to include more works of allied thinkers in order to provide readers with a more nuanced view of the particular view in question Selections from classic writers such as Aristotle Thomas Hobbes Immanuel Kant and Plato are accompanied by more contemporary writings Annotation 2007 Book News Inc Portland OR booknews.com Distributed by Syndetic Solutions LLC

Should Abortion Be Legalized? Patrick Kimuyu, 2017-11-29 Essay from the year 2016 in the subject Medicine Other grade 1 Egerton University language English abstract This argument paper will give an overview over the issue of abortion and attempt to provide a justification for the legalization of abortion Abortion is seemingly becoming an enormous public health challenge in the United States It has also emerged to be one of the most contentious social issues among the U S population leading to an unprecedented debate over its legalization This debate can be attributed to the current situation whereby the prevalence rates of abortion seem to have assumed upward trends It is quite surprising to learn that almost half of pregnancies among women in the United States are unintended thus termination of the pregnancies serves as the most appropriate alternative It has been found out that half of the women experiences at least one unintended pregnancy before the age of 45 years and a third of these pregnancies are terminated In the past decade cases of abortion have increased significantly and this change in prevalence trends is believed to have been caused by an array of social medical and economic factors Currently epidemiological reports indicate that four women out of ten pregnant women carry out abortion in the U S However it is worth noting that the prevalence of abortion among different social classes of people with different socioeconomic status are relatively variant owing to the differences in conception rates In the past two decades unintended pregnancy rates among women with low socioeconomic status increased by 50% whereas the rates decreased by 29% among women with high socioeconomic status These epidemiological trends have caused uproar in the society leading to the current abortion debate Despite the controversy overshadowing the issue abortion appears to be a personal issue because it influences one's health and social life
