**Iberian Moorings** Ross Brann, 2021-05-28 To Christians the Iberian Peninsula was Hispania to Muslims al Andalus and to Jews Sefarad. As much as these were all names given to the same real place, the names also constituted ideas and like all ideas they have histories of their own. To some al Andalus and Sefarad were the subjects of conventional expressions of attachment to and pride in homeland of the universal sort displayed in other Islamic lands and Jewish communities but other Muslim and Jewish political, literary and religious actors variously developed the notion that al Andalus or Sefarad, its inhabitants and their culture were exceptional and destined to play a central role in the history of their peoples. In *Iberian Moorings* Ross Brann traces how al Andalus and Sefarad were invested with special political, cultural and historical significance across the Middle Ages. This is the first work to analyze the tropes of Andalus and Sefardi exceptionalism in comparative perspective. Brann focuses on the social power of these tropes in Andalus, Islamic and Sefardi Jewish cultures from the tenth through the twelfth century and reflects on their enduring influence and its expressions in scholarship, literature and film down to the present day.

*Encyclopedia of Islamic Civilization and Religion* Ian Richard Netton, 2013-12-19 The *Encyclopedia of Islamic Civilization and Religion* provides scholarly coverage of the religion, culture and history of the Islamic world at a time when that world is undergoing considerable change and is a focus of international study and debate. The non-Muslim world's perceptions of Islam have often tended to be dominated by unrepresentative radical extremist movements and media interpretations of events involving such movements to the extent that many people are unaware of the depth and variety of Islamic thought. At the same time, many who have had a formal training in Islamic studies have tended to concentrate on the traditional to the exclusion of the contemporary. The *Encyclopedia of Islamic Civilization and Religion* covers the full range of Islamic thought in historical depth but it also provides substantial coverage of contemporary trends across the Muslim world. With well over a thousand entries on Islamic theology, history, arts, science, law and institutions and coverage of Islam in individual countries and cities around the world, the *Encyclopedia of Islamic Civilization and Religion* provides an extremely rich resource for students and researchers in religious studies and Middle Eastern studies. Entries are cross-referenced and bibliographies are provided. There is a full index. Routledge published *The Quran: An Encyclopedia* in 2005, an excellent companion to the *Encyclopedia of Islamic Civilization and Religion*.

**The Contemplative Soul** Adena Tanenbaum, 2002-11-01 During the eleventh and twelfth centuries Jewish poets in Islamic Spain introduced philosophical themes into their devotional verse. Drawn to Neoplatonic thought, they made liberal use of its myth of the soul to explore the

**Arabs and Iranians in the Islamic Conquest Narrative** Scott Savran,2017-09-08 Arabs and Iranians in the Islamic Conquest Narrative analyzes how early Muslim historians merged the pre Islamic histories of the Arab and Iranian peoples into a didactic narrative culminating with the Arab conquest of Iran This book provides an in depth examination of Islamic historical accounts of the encounters between representatives of these two peoples that took place in the centuries prior to the coming of Islam By doing this it uncovers anachronistic projections of dynamic identity and political discourses within the contemporaneous Islamic world It shows how the formulaic placement of such embellishment within the context of the narrative served to justify the Arabs rise to power whilst also explaining the fall of the Iranian Sasanian empire The objective of this book is not simply to mine Islamic historical chronicles for the factual data they contain about the pre Islamic period but rather to

understand how the authors of these works thought about this era By investigating the intersection between early Islamic memory identity construction and power discourses this book will benefit researchers and students of Islamic history and literature and Middle Eastern Studies
