Daily Graphic Elizabeth Ohene,1980-02-19 **School from Scratch** Doug Crowder,2022-11-18 School from Scratch could be the resource you need to open the doors of your mind to awesome possibilities Drawing on forty years of starting schools and a host of other educational ministries worldwide Doug Crowder shares stories and insights that will challenge you to step out and boldly follow God s leadership Writing in a straightforward fashion he walks you through how to confront a lack of resources how to identify facilities how to navigate legal issues and more Get answers to questions such as Is it really possible to share the gospel through education How did the COVID 19 pandemic create opportunities for school startups Which school models are most likely to succeed The author emphasizes that there are God fearing believing people families business owners and even entire church congregations without a well developed biblical worldview Through education we have the opportunity and privilege to enhance the lives of others both young and old *The Big Book of Home Learning Volume 1 Getting Started* Mary Pride,2000-09 Creationism USA Adam Laats,2020-09-24 Who are America s creationists What do they want Do they truly believe Jesus rode around on dinosaurs as sometimes depicted Creationism USA reveals how common misconceptions about creationism have led Americans into a century of unnecessary culture war histrionics about evolution education and creationism Adam Laats argues that Americans do not have deep fundamental disagreements about evolution not about the actual science behind it and not in ways that truly matter to public policy Laats asserts that Americans do however have significant disagreements about creationism By describing the history of creationism and its many variations Laats demonstrates that the real conflict about evolution is not between creationists and evolution The true landscape of American creationism is far more complicated than headlines suggest Creationism USA digs beyond those headlines to prove two fundamental facts about American creationism First almost all Americans can be classified as creationists of one type or another Second nearly all Americans including self identified creationists want their children to learn mainstream evolutionary science Taken together these truths about American creationism point to a large and productive middle ground a widely shared public vision of the proper relationship between schools science and religion Creationism USA both explains the current state of America s battles over creationism and offers a nuanced yet straight forward prescription to solve them *Beyond Single Stories* Amy Allen,Anne Marie Kavanagh,Caitríona Ní Cassaithe,2024-02-01 Every social studies curriculum tells a story It is increasingly apparent that new stories are needed to guide us through the multiple and intersecting crises that have come to define our times This accessible volume supports student teachers teachers and teacher educators to engage critically with the stories that social studies curricula tell and neglect to tell particularly those that relate and contribute to the root causes of contemporary social and ecological injustices A balanced and inclusive curriculum necessitates a broad range of stories and perspectives not just the master narratives of dominant groups Incorporating a range of pedagogical approaches and spanning a diversity of themes from representations

of Africa in Chinese textbooks to slavery and the American civil rights movement to refugees and the role of indigenous knowledge systems in addressing climate breakdown this volume includes and creatively engages with previously marginalized and silenced stories and perspectives Both practical and theoretical in its approach it seeks to provoke meaningfully support and inspire educators to incorporate alternative stories or counter narratives into their social studies teaching This unique volume is essential reading for student teachers teachers teacher educators as well as anyone interested in inspiring children and young people to be open minded critically engaged and empathetic agents of change committed to addressing realworld social and ecological injustices

Hijacking History Kathleen Wellman, 2021-08-18 The teaching of history has long been the subject of partisan warfare Religion often plays a prominent role in these debates as secular progressives and conservative Christians disagree over which historical figures are worthy of study how or whether certain events should be portrayed and ultimately how tax dollars should be spent But what about students who are educated outside the public schools either in religious schools or at home How are they learning history and what effect does that have on our democracy *Hijacking History* analyzes the high school world history textbooks produced by the three most influential publishers of Christian educational materials In these books the historian informed by his faith tells the allegedly unbiased story of God's actions as interpreted through the Bible History becomes a weapon to judge and condemn civilizations that do not accept the true God or adopt biblical positions In their treatment of the modern world these texts identify ungodly ideas to be vanquished evolution humanism biblical modernism socialism and climate science among them The judgments found in these textbooks Kathleen Wellman shows are rooted in the history of American evangelicals and fundamentalists and the battles they fought against the tide of secularism In assuming that God sanctions fundamentalist positions on social political and economic issues students are led to believe that that the ultimate mission of America is to succeed as a nation that advances evangelical Christianity and capitalism throughout the world The Christianity presented in these textbooks is proselytizing intolerant of other religions and non evangelical Christians and unquestionably anchored to the political right As *Hijacking History* argues the ideas these textbooks promote have significant implications for contemporary debates about religion politics and education and pose a direct challenge to the values of a pluralistic democracy

Teaching World Literature David Damrosch, 2009 This is an exciting and unsettling time to be teaching world literature writes David Damrosch Because the range of works taught in world literature courses has expanded enormously both historically and geographically the task of selection and of teacher preparation has grown more challenging Teachers of this field must grapple with such issues as coverage cultural difference and the role of translation in the classroom Should one emphasize masterpieces or traditions concepts or themes How does one avoid making a work bear the burden of representing an entire tradition To what extent should anthologies be used Can a course be global in scope and yet focus on a few works authors moments This collection of thirty two essays in the MLA series *Options for Teaching* offers an array of solutions to these

challenges reflecting the wide variety of institutions courses and students described by the contributors An annotated bibliography is provided with a listing of useful Web sites *Public Education* David C. Berliner, Carl Hermanns, 2022

Twenty eight eminent essayists remind our nations parents educators school board members and politicians that our democracy is in jeopardy and that our nation s system of free universal public education is also under attack If that attack succeeds American democracy itself would be further imperiled That is because American democracy rests on a belief that the power of our government comes from the people and the diffusion of knowledge and the enlightenment of the people has been a cornerstone of our democracy since the founding of our republic America s public schools therefore have a special mandate The Mirror Margaret Safo (Mrs.), 2006-09-02 Choosing and Using Curriculum Joyce Herzog, 2015-03-16

Have you ever asked yourself any of these questions What am I doing Why am I doing it that way Are there other ways Which way is best for my family Where do I get the resources I need to make it happen How do I avoid over spending on curriculum This book is a wealth of information Topics and chapters include Comparison of reading programs Comparison of math programs Developing written expression Adapting materials for special situations General homeschooling resources Resources for blind deaf and speech language Curriculum types and styles How to take a snapshot of your child s progress This book is a two hour read that will provide you with direction comfort and the means to make your homeschool some together in the ways you dream of It will help you clear your brain and know your mind and then find the resources you need to carry out your newly discovered vision You don t want to start homeschooling without it *Wild Faith* Talia Lavin, 2024-10-15

The Christian right has been threatening American plurality for decades and its influence is on the rise In *Wild Faith* Talia Lavin thoroughly chronicles how this reactionary force is spreading through the US political system and sounds a clear alarm Christian nationalism is a growing danger to democracy To fully understand the peril at hand you must read this book which is both an investigative triumph and a warning David Corn author of 1 New York Times bestseller *Russian Roulette* and *American Psychosis* An investigation into the rise of the Christian Right over the last half century that lays out the grim vision evangelicals are enforcing on our democracy All across America a storm is gathering from book bans in school libraries to anti trans laws in state legislatures firebombings of abortion clinics and protests against gay rights The Christian Right a cunning political force in America for more than half a century has never been more powerful than it is right now it propelled Donald Trump to power and it won t stop until it s refashioned America in its own image In *Wild Faith* critically acclaimed author Talia Lavin goes deep into what motivates the Christian Right from its segregationist past to a future riddled with apocalyptic ideology Using primary sources and firsthand accounts Lavin introduces you to deliverance ministers who carry out exorcisms by the hundreds modern day self proclaimed prophets and apostles Christian militias cults zealots and showmen and the people in power who are aiding them to achieve their goals Along the way she explores anti abortion terrorists the Christian Patriarchy movement with its desire to place all women under absolute male control the

twisted theology that leads to rampant child abuse and the ways conspiracy theorists and extremist Christians influence each other to mutual political benefit From school boards to the Supreme Court Christian theocracy is ascendant in America and only through exploring its motivations and impacts can we understand the crisis we face In Wild Faith Lavin fearlessly confronts whether our democracy can survive an organized fervent theocratic movement one that seeks to impose its religious beliefs on American citizens *Daily Graphic* Yaw Boadu-Ayebofoh,2006-03-25 Contemporary Issues in Equity, Democracy, and Public Education Felicity Crawford,Fadie T.
