Graff,2024-11-12 One of the rare books on the topic that manages to be both entertaining and factually grounded The Wall Street Journal From the bestselling author of Raven Rock The Only Plane in the Sky and Watergate finalist for the Pulitzer Prize in history comes the first comprehensive and eye opening exploration of our government s decades long quest to solve one of humanity s greatest mysteries Are we alone in the universe For as long as we have looked to the skies the question of whether life on earth is the only life to exist has been at the core of the human experience driving scientific debate and discovery shaping spiritual belief and prompting existential thought across borders and generations It s one of our culture s favorite conversations and yet the idea of extraterrestrial intelligence has been largely banished to the realm of fantasy and conspiracy Now for the first time the full story of our national obsession with UFOs and the covert search by scientists the United States military and the CIA for proof of alien life is told by bestselling author and Pulitzer Prize finalist Garrett M Graff in a deeply reported and researched history It begins in 1947 when two headline making sightings of strange flying objects prompt the US Air Force s newly formed Department of Defense to create a series of secret programs to determine how unidentified phenomena may pose a threat to national security Over the next half century as the atomic age gives way to the space race and the Cold War the mission continues bringing together an unexpected group of astronomers military officials civilian contactees and true believers who bring us closer then further then closer again to answering one of our most enduring questions What exactly is out there Drawing from original archival research declassified documents and interviews with senior intelligence and military officials Graff brings readers a story that s Loads of fun a fascinating deep dive down the rabbit hole Publishers Weekly

Shaun Chapman,2015-12-11 James Spillaney part spy part detective passing life in a world where he doesnt fit in It was the 1950s heralded in by the Roswell crash in 1947 In a world where science had suddenly exploded onto the scene with so many technological advancements it was hard to keep up Its a world of controversy deceit and lies and that was only from the politicians of valve phones and hydrogen powered steam engines thundering around the globe on a super rail track system started by the Germans before the war the International Train Transport System ITTS and of art deco edifices reminiscent of the 20s But underneath it all underneath the shining metropolises scattered around the earth which were examples of mans ingenuity and brilliance of mind was an undercurrent of iniquity and murder controlled by a few or as James puts it the pond scum of the universe Spillaney will do everything he needs to resolve a case and if that means bustin some nuts then so be it He has more enemies than hairs on a camels back

their weapons of choice are bullets knives bricks and machetes He has an ex wife who hates him and wants him dead the Spy Factory wanting to torture and murder him a criminal organization wanting him removed permanently and an assorted bunch of undesirables lunatics and corporate thugs They all step over the line just to make his life miserable Not that James could give a damn He just takes life one day at a time As he puts it the world is not sane enough 2016: the Campaign Chronicles JD Foster,2019-10-08 The 2016 campaign ended with Donald J Trump as president elect of the United States astounding just about everyone More than two dozen candidates had vied for the two parties nominations leaving Trump and former Secretary of State Hillary Clinton Her flaws standing in rough proportion to her strengths Clinton had been the presumed Democratic nominee though Bernie Sanders had nearly upended her run In contrast Trump s capturing the Republican nomination seemed preposterous before and after the fact The campaign overall was far more than the result It was a long tumultuous outrageous frolic of American politics The Campaign Chronicles was written contemporaneously with events as they happened so as to capture the sense of each amazing if horrific moment Even weeks after the election the country remained stunned by the outcome which as we learned foretold of a presidency unlike any before it But before the presidency there was a campaign about which many histories will be written But before the histories must come the chronicling history stripped of faded memories and coherent perspective Herewith such a chronicling written from a determinedly neutral posture presenting the good with the bad for all concerned
