Celebrities in American Elections Richard T. Longoria,2022-09-02 Using a case study approach Celebrities in American Elections contends that celebrities have the talent fame and resources to succeed in electoral politics These factors account for the electoral victories of Ronald Reagan Clint Eastwood Fred Grandy Sonny Bono Jesse Ventura Arnold Schwarzenegger Al Franken and Donald Trump However the author argues that these items are insufficient without a

favorable political environment as many celebrities have lost elections as have won them They lose because their persona does not match the politics of their time or they represent the minority party in a one party dominated district or state or they advocate for unpopular policies Among those that won nearly half were elected by a plurality not a majority of voters This does not suggest overwhelming public support for celebrity candidates despite their many advantages With a few exceptions celebrities that won tended to also win the fundraising battle while celebrities that lost tended to raise less than their opponent the normal laws of politics still apply The celebrity factor while helpful does not fully explain why celebrities win or lose elections

Taking Comedy Seriously Jennalee Donian, 2018-12-31 This book explores stand up comedy as a relevant sociological phenomenon from a contemporary perspective as both a symptom of neoliberal capitalism and the locus specificus of socio political critique in the era of Empire It draws a feasible connection between the conspicuous rise in the art form s popularity over the past number of years and the dehumanizing and fracturing processes of the current dispensation that are increasingly becoming the defining experience of life in the contemporary era and to which understood in terms of the traditional humor theory of relief of which Sigmund Freud is key comedy serves as an obvious palliative More than this Taking Comedy Seriously Stand Up s Dissident Potential in Mass Culture in the Context of the Neoliberal Domain of Empire questions the possibility of a contemporary aesthetics of humor given that much of the art form is disseminated and controlled by the mass media and as such complicit in its work In particular it argues that the ideological situation of global capitalism poses an obvious predicament for the possibility of a socio politically efficacious stand up comedy in that ironic and skeptical distance is already characteristic of postmodern cynicism incorporated into the social fabric itself effectively rendering the comedic technique of satire synonymous with so called political comedy altogether appropriated or at least

compromised and subsequently impotent From where then does a site of resistance emerge Through an analysis of a range of contemporary televisual digital and literary examples from the comedic routines of American comedian and talk show host Ellen DeGeneres South African satirist Pieter Dirk Uys and South African born and now American comedic talk show sensation Trevor Noah this book argues that a contemporary political comedy is reliant on a structuring aesthetic logic built around dissent disruption and difference *Focus On: 100 Most Popular English-language Film Directors* Wikipedia contributors,
