

The background of the book cover is a vibrant illustration of the mythological hero Heracles wrestling the Nemean Lion. Heracles, on the left, is depicted in a dynamic, athletic pose, wearing a lion's head as a helmet and a lion's skin as a tunic. He is reaching out with his right arm to grasp the lion's paw. The Nemean Lion, on the right, is a large, dark-furred creature with a golden mane and a fierce expression, its mouth open in a roar. The scene is set against a bright yellow and orange background, suggesting a sunset or sunrise. The overall style is reminiscent of classical Greek art, with strong lines and a focus on the physical struggle.

Kershaw,2022-10-04 The year 2022 marks 2 500 years since Athens the birthplace of democracy fought off the mighty Persian Empire This is the story of the three epic battles Marathon Thermopylae and Salamis that saved democracy forever altering the history of Europe and the West In 2022 it will be 2 500 years since the final defeat of the invasion of Greece by Xerxes the Persian king This astonishing clash between East and West still has resonances in modern history and has left us with tales of heroic resistance in the face of seemingly hopeless odds The Harvest of War makes use of recent archaeological and geological discoveries in this thrilling and timely retelling of the story originally told by Herodotus the Father of History In 499 BC when the rich sophisticated Greek communities of Ionia on the western coast of modern Turkey rebel from their Persian overlord Darius I Athens sends ships to help them

Darius crushes the Greeks in a huge sea battle near Miletus and then invades Greece Standing alone against the powerful Persian army the soldiers of Athens newly democratic state a system which they have invented unexpectedly repel Darius s forces on the plains of Marathon After their victory the Athenians strike a rich vein of silver in their state owned mining district and decide to spend the windfall on building a fleet of state of the art warships Persia wants revenge The next Persian king Xerxes assembles a vast multinational force constructs a bridge of boats across the Hellespont digs a canal through the Mount Athos peninsula and bears down on Greece Trusting in their wooden walls the Athenians station their ships at Artemisium where they and the weather prevent the Persians landing forces in the rear of the land forces under the Spartan King Leonidas at the nearby pass of Thermopylae Xerxes s assault is a disastrous failure until a traitor shows him a mountain track that leads behind the Greeks Leonidas dismisses the Greek troops but remains in the pass with his 300 Spartan warriors where they are overwhelmed in an heroic last stand Athens is sacked by the Persians Democracy is hanging by a thread But the Athenians convince the Greek allies to fight on in the narrow waters by the island of Salamis Despite the heroism of the Persian female commander Artemisia the Persian fleet is destroyed The Harvest of War concludes by exploring the ideas that the decisive battles of Marathon Thermopylae and Salamis mark the beginnings of Western civilization itself and that Greece became the bulwark of the West representing the values of peace freedom and democracy in a region historically ravaged by instability and war

*Cleopatra* M.J. Trow,2013-02-11 When Cleopatra took the throne of the kingdom of Egypt the pyramids and Sphinx were already ancient wonders As queen she faced conquest by a new all powerful empire A Ptolemy descended from a general of Alexander the Great who conquered the Nile as part of his Macedonian lands her relationship with Mark Anthony has become one of the legendary love stories in history Trow draws on recent archaeological finds and fresh interpretations of ancient texts to separate truth from myth and set this incomparably beautiful queen in context

**The Search for Atlantis** Stephen Kershaw,2018-10-02 The Atlantis story remains one of the most haunting and enigmatic tales from antiquity and one that still resonates very deeply with the modern imagination But where did Atlantis come from what was it like and where did it go Atlantis was first introduced by the Greek philosopher Plato in the fourth century BCE As he discusses about the origins of life the universe and humanity the great thinker puts forward a stunning description of Atlantis an island paradise with an ideal society But the Atlanteans soon degenerate and become imperialist aggressors they choose to fight against antediluvian Athens which heroically repels their mighty forces before a cataclysmic natural disaster destroys the warring states Plato s tale of a great empire that sank beneath the waves has sparked thousands of years of debate over whether Atlantis really existed But did Plato mean his tale as history or just as a parable to help illustrate his philosophy

*On the Ocean* Barry W. Cunliffe,2017 The story of the contest between humans and the sea played out in the Mediterranean and the Atlantic from early prehistory until AD 1500

**On the Ocean** Sir Barry Cunliffe,2017-12-15 For humans the sea is and always has been an alien environment Ever moving and ever changing

in mood it is a place without time in contrast to the land which is fixed and scarred by human activity giving it a visible history While the land is familiar even reassuring the sea is unknown and threatening By taking to the sea humans put themselves at its mercy It has often been perceived to be an alien power teasing and cajoling The sea may give but it takes Why then did humans become seafarers Part of the answer is that we are conditioned by our genetics to be acquisitive animals we like to acquire rare materials and we are eager for esoteric knowledge and society rewards us well for both Looking out to sea most will be curious as to what is out there a mysterious island perhaps but what lies beyond Our innate inquisitiveness drives us to explore Barry Cunliffe looks at the development of seafaring on the Mediterranean and the Atlantic two contrasting seas the Mediterranean without a significant tide enclosed and soon to become familiar the Atlantic with its frightening tidal ranges an ocean without end We begin with the Middle Palaeolithic hunter gatherers in the eastern Mediterranean building simple vessels to make their remarkable crossing to Crete and we end in the early years of the sixteenth century with sailors from Spain Portugal and England establishing the limits of the ocean from Labrador to Patagonia The message is that the contest between humans and the sea has been a driving force perhaps the driving force in human history
