# A Duty Of The Heart

**Ehud Z. Benor**

## **A Duty Of The Heart:**

*The Duties of the Heart* Bahya ben Yosef ibn Pakuda, Rabbi Ben Joseph Ibn Bachye, 1909 *The Duties of the Heart* is a classic of Jewish scholarship. It discusses how a person should express devotion to God and how the divinity bestows the finest virtues to humankind. The author endeavors to define the God-given qualities of man; these used correctly represent a fulfillment of duty to the divine. Principally, he identifies the intellect as a means of honoring the heavens; intelligent thought directed to useful, fulfilling, and virtuous ends constitutes the use of God's gifts. The introductory essay by the translator Edwin Collins makes the case that Bachye's treatise contains elements both of Western Christianity and ethical tenets rooted in Eastern spiritual traditions. Ben Joseph Ibn Bachye lived sometime between the 11th and 12th centuries and was a Rabbi who worked as a Dayan, an administrative position that resembled that of a judge. His exact place of habitat is unknown as records of the period are lost. However, he is speculated to have been born and resident in Zaragoza in Spain, as it was in this country that the Jewish diaspora produced several of its most innovative and celebrated Medieval era thinkers.

**A Plain Word to "the Wise in Heart" in Our Duties at Church; and on Our Prayer Book Services. With Thoughts, Prayers, and Hymns** Plain word, Word, 1857

*Is There a Duty to die?* James M. Humber, Robert F. Almeder, 2000-01-03 The question of whether there might be a duty to die was first raised by Margaret Battin in 1987 in her ground-breaking essay *Age Distribution and the Just Distribution of Health Care*. *Is There a Duty to Die* In 1997 the issue was reprised when two new articles appeared on the topic, written by John Hardwig and the other by former Colorado Governor Richard D. Lamm. Given the renewed interest in the topic as well as its undeniable importance, *Biomedical Ethics* Reviews sought to initiate an in-depth discussion of the issue by soliciting articles and issuing a general call for papers on the topic *Is There a Duty to Die*. The twelve articles in this volume represent the ultimate fruits of those initiatives. The first seven essays in this text are sympathetic to the claim that there is a duty to die. They argue either a) that some form of a duty to die exists or b) that arguments that might be offered against the existence of such a duty cannot be sustained. By way of contrast, the last five articles in the text are critical of duty to die claims. The authors of the first three of these five articles attempt to cast doubt on the existence of a duty to die, and the writers of the last two essays argue that if such a duty did exist, severe problems would arise whenever we attempted to implement it.

*Worship of the Heart* Ehud Z. Benor, 2012-02-01 Benor's study offers a systematic Aristotelian account of Maimonides' philosophy of religion that reconciles the ideals of rabbinic Judaism with the sensibilities of a medieval Jewish philosopher. Coherently unifies his work and shows where Maimonides' uncompromising radicalism presents enduring and challenging insights to the history and the philosophy of religion. *Worship of the Heart* explores Maimonides' contribution to the understanding of prayer, examining it against the background of two contrasting notions: dialogue and contemplation. The author argues that

Maimonides integrates fundamental elements of these conceptions with his own insights to forge a mediating conception of prayer a conception as constitutive of a world view

**Gospel-worship, Or, The Right Manner of Sanctifying the Name of God in Generall** Jeremiah Burroughs,1648      The Heart of Christ in Heaven Thomas Goodwin,1642      **Sermons on the Heart** John Jamieson,1790      *The Heart of Altruism* Kristen Renwick Monroe,1998-07-01

Is all human behavior based on self interest Many social and biological theories would argue so but such a perspective does not explain the many truly heroic acts committed by people willing to risk their lives to help others In *The Heart of Altruism* Kristen Renwick Monroe boldly lays the groundwork for a social theory receptive to altruism by examining the experiences described by altruists themselves from Otto a German businessman who rescued over a hundred Jews in Nazi Germany to Lucille a newspaper poetry editor who armed with her cane saved a young girl who was being raped Monroe s honest and moving interviews with these little known heroes enable her to explore the causes of altruism and the differences between altruists and other people By delineating an overarching perspective of humanity shared by altruists Monroe demonstrates how social theories may begin to account for altruism and debunks the notions of scientific inevitability that stem from an overemphasis on self interest As Monroe has discovered the financial and religious backgrounds of altruists vary greatly as do their views on issues such as welfare civil rights and morality Altruists do however share a certain way of looking at the world where the rest of us see a stranger altruists see a fellow human being It is this perspective that many social theories overlook Monroe restores altruism to a general theory of ethical political behavior She argues that to understand what makes one person act out of concern for others and not the self we need to ask how that individual s perspective sets the range of options he or she finds available

*A Childlike Heart* Alan D. Wright,2011-09-14 To all of us too serious on the edge busy and preoccupied adults Alan Wright offers a reminder of Jesus words regarding the heart of the child Of such is the kingdom of God In this new trade paper edition of *A Chance at Childhood* Again Wright reveals how we can recapture the unbridled freedom we once relished As he watched his own son discover the world for the first time he realized that the carefree wonder filled attitude of youth is possible in adulthood As we look back with nostalgia and appreciation at the simple pleasures of our growing up years Wright explains we will rediscover how our days can be characterized by a spirit of adventure and wide eyed joy in the Lord

**THE WORKS OF NATHANAEL EMMONS** ,1863      **The Heart of Human Rights** Allen Buchanan,2013-12 This book provides a moral assessment of the heart of the modern human rights enterprise the system of international legal human rights Any attempt to achieve a moral assessment of that enterprise must first evaluate the system of international legal human rights which includes both legal norms and the institutions that create interpret and implement them When philosophers have addressed the system of international legal human rights at all they have tended to assume that international legal human rights when they are morally justified mirror or at least help to realize preexisting moral human rights But international legal human rights like many other legal rights can be justified by appeal to several different

types of moral considerations of which the need to realize preexisting moral individual rights is only one. Justifying the system of international legal human rights requires not only advancing sound arguments for international legal human rights norms but also an account of the legitimacy of the institutions of the international legal human rights system. It also requires showing that the legal rights in question should be part of a system of international law rather than merely being included in domestic legal systems. Finally, justification also requires an account of the supremacy of international human rights law, a determination of whether and if so under what conditions international human rights law should trump domestic law including the constitutional law of the best existing liberal democratic states.

**At the Heart of the State** Didier Fassin, 2015-06-20. The state is often regarded as an abstract and neutral bureaucratic entity. Against this common sense idea, *At the Heart of the State* argues that it is also a concrete reality with a morality embodied in the work of its agents and inscribed in the issues of its time. A political and moral anthropology, this book is the result of a five year investigation conducted by ten scholars based in France. It analyses amongst other topics the police, the court system, the prison apparatus, the social services and mental health facilities. Combining genealogy and ethnography, its authors show that these state institutions do not simply implement laws, rules and procedures; they mobilise values and affects, judgements and emotions. In other words, they reflect the morality of the state.

**The Heart of What Matters** Anthony Cunningham, 2001-09-04. This is a wonderful book, beautifully written, deeply moving and philosophically well argued. I loved it. Nel Noddings, author of *Caring: A Feminine Approach to Ethics and Moral Education*. This book gives us something all too rare in contemporary philosophical writing: a passionate, careful, deeply sympathetic and sustained analysis of some important literary narratives in aid of a clearly defined philosophical project. Whether one agrees with Cunningham's conclusions or not, his treatment of the texts is inspiring and illuminating. Lawrence C. Becker, author of *A New Stoicism*.

*The Lonely One: A Chronicle of Art, Heart, and Self-Discovery* Pasquale De Marco. In a world saturated with conformity, Pasquale De Marco emerges as a beacon of originality: an artist who defies categorization and challenges conventions. His music, his writing, his very existence is a testament to the power of individuality and the transformative nature of art. This book is an intimate exploration of Pasquale De Marco's creative journey, offering a rare glimpse into the mind of a true visionary.
