**Bodies, Politics and Transformations: John Donne's Metempsychosis** Siobhán Collins,2016-04-15 Since the beginning of the twentieth century critics have predominantly offered a negative estimate of John Donne s Metempsychosis In contrast this study of Metempsychosis re evaluates the poem as one of the most vital and energetic of Donne s canon Siobh n Collins appraises Metempsychosis for its extraordinary openness to and its inventive portrayal of conflict within identity She situates this ludic verse as a text alert to and imbued with the Elizabethan fascination with the

processes and properties of metamorphosis Contesting the pervasive view that the poem is incomplete this study illustrates how Metempsychosis is thematically linked with Donne's other writings through its concern with the relationship between body and soul and with temporality and transformation Collins uses this genre-defying verse as a springboard to contribute significantly to our understanding of early modern concerns over the nature and borders of human identity and the notion of selfhood as mutable and in process Drawing on and contributing to recent scholarly work on the history of the body and on sexuality in the early modern period Collins argues that Metempsychosis reveals the oft-violent processes of change involved in the author's personal life and in the intellectual religious and political environment of his time She places the poem's somatic representations of plants beasts and humans within the context of early modern discourses natural philosophy medical political and religious Collins offers a far-reaching exploration of how Metempsychosis articulates philosophical inquiries that are central to early modern notions of self-identity and moral accountability such as the human capacity for autonomy the place of the human in the great chain of being the relationship between cognition and embodiment memory and selfhood and the concept of wonder as a distinctly human phenomenon

Kenneth Ciongoli, Jay Parini, 1997 A long overdue collection of memoirs and scholarly reflections on growing up Italian and American Writing With An Accent Edvige Giunta, 2016-04-30 Mary Cappello Louise DeSalvo Sandra M Gilbert Maria Mazziotti Gillan Carole Maso Agnes Rossi These are some of the best known Italian American writers today They are part of a literary tradition with mid twentieth century roots that began to develop in earnest in the late 1970s and early 1980s During those decades a number of Italian American women such as Helen Barolini began to publish books that depicted their perspectives on life through the critical lenses of gender class and ethnicity At the end of the twentieth century this literature finally blossomed into a fully fledged cultural movement that also took into account issues of sexuality age illness and familial and societal abuse Writing with an Accent takes a look at this vibrant literary movement by discussing those first writers of the 1970s and 1980s as well as later authors At the center of Edvige Giunta's Writing with an Accent is the literal notion of accent the marker of linguistic and cultural difference that separates and identifies recent immigrants to the United States In this study an accent symbolically embodies the differences and creative strategies through which contemporary Italian American women writers engage Italian American culture in works of fiction poetry and memoir Giunta also looks at the links between the literature and art music film and video produced by contemporary Italian American women The literature of the Italian American women in Writing with an Accent is shaped by the complicated connections these authors maintain with their cultural origins but also and perhaps more importantly by their feminist consciousness and politicized sense of ethnic identity

Writing with an Accent celebrates and explores a group of authors who characteristically mix the joy and pain of Italian American life to paint a multifaceted picture of Italian American women and their complex place in U S culture *Death & Sex* Tyler Volk, Dorion Sagan, 2009-10-13 On DEATH What is shared by spawning Pacific salmon towering trees and suicidal bacteria In his lucid and concise exploration of how and why things die Tyler Volk explains the intriguing ways creatures including ourselves use death to actually enhance life Death is not simply the end of the living though even in that aspect the Grim Reaper has long been essential to natural selection Indeed the exquisite schemes and styles of death that have emerged from evolution have been essential to the great story from life s beginnings in tiny bacteria nearly four thousand million years ago to ancient human rituals surrounding death and continuing to the existential concerns of human culture and consciousness today Volk weaves together autobiography biology Earth history and results of fascinating studies that show how thoughts of our own mortality affect our everyday lives to prove how an understanding of what some have called the ultimate taboo can enrich the celebration of life and SEX In Sex Dorion Sagan takes a delightful irreverent and informative romp through the science philosophy and literature of humanity s most obsessive subject Have you ever wondered what the anatomy and promiscuous behaviors of chimpanzees and the sexual bullying of gorillas tell us about ourselves Why we lost our hair What amoebas have to do with desire Linking evolutionary biology to salacious readings of the lives and thoughts of such notables as the Marquis de Sade and Simone de Beauvoir and discussing works as varied as The Story of O and Silence of the Lambs Sex touches on a potpourri of interrelated topics ranging from animal genitalia to sperm competition the difference between nakedness and nudity jealousy s status as an aphrodisiac and the origins of language Casanova and music ovulation and clothes mother in law jokes and alpha females love and loneliness A brief wonderfully entertaining highly literate foray into the origins and evolution of sex Two books in one cover Death Sex unravel and answer some of life s most fundamental questions **Death as an Enemy According to Ancient Egyptian Conceptions** Jan Zandee, 2018-08-14 Preliminary Material J Zandee General Outline J Zandee Terms J Zandee Representations of the Netherworld in Demotic Literature J Zandee Punishment in the Hereafter According to the Coptic Texts J Zandee Summary J Zandee Additions and Afterthoughts J Zandee *A Fight to the Death* Michael Gunton, 2009-09-01 This compelling adventure story follows the fate of the Polish submarine Eagle during the early days of the Second World War *The Bradys and the Death Bell; Or, The Secret of the Indian Juggler*, 1909 The Pony Fish's Glow George C. us logical reasons to explain why we crave foods like sugar and fat that have been proven time and again to be detrimental to our health And Williams single handedly deflates our Homo sapiens sapiens ego with such insights as Our eyesight it may seem superior but not when compared to that of the invertebrate squid whose eye has developed over time to prove more efficient than ours And wouldn't it make more sense to have a third eye located on the back of the head We could have stereoscopic vision in front and rear vision warning us of danger sneaking up behind Rear view mirrors would become a thing of the past And why stop at three eyes This fascinating new book is markedly different from all previous work on evolutionary biology Using the pony fish and its luminescent abdomen as the perfect evolutionary mystery Williams explores the intricacies of nature's designs Rather than telling us how or why the pony fish got its light Williams explains the functional reasons why the pony fish keeps its light He also explains why our species keeps arbitrary or malfunctioned features like the reproductive and excretory systems sharing of parts George C Williams one of today's most qualified evolutionary biologists has written an important entertaining and thought provoking addition to a science that has captivated the world for almost 150 years
