1852 The British Homoeopathic Review 1897 British Medical Journal 1925 "White" Americans in "Black"

Africa Eunjin Park, 2001 This compelling book brings to light a disillusioned experiment of biracial missionary labours that were expected to carry the beliefs and cultural values of nineteenth century white Americans to the black continent of Africa Black '47 F. Neal, 1997-11-10 The Irish Famine of 1845 49 was a major modern catastrophe The return of the potato blight in 1846 triggered a huge exodus of destitute Irish seeking refuge in British towns and 1847 witnessed an unprecedented inflow of Irish refugees into Britain This book examines the scale of that refugee immigration the conditions under which the refugees were carried to Britain the relief operations mounted the horrors of the typhus epidemic in Liverpool Glasgow Manchester South Wales and the North East and the financial cost to the British ratepayers

Necropolis Kathryn Olivarius, Kathryn Meyer McAllister Olivarius, 2022-04-19 Winner of the Frederick Jackson Turner Award Winner of James H Broussard Best First Book Prize SHEAR Winner of the Kemper and Leila Williams Prize in Louisiana History Winner of the Humanities Book of the Year Award Louisiana Endowment for the Humanities A brilliant book This transformative work is a pivotal addition to the scholarship on American slavery Annette Gordon Reed A stunning account of high risk high reward profiteering in the yellow fever ridden Crescent City a world in which a deadly virus altered every aspect of a brutal social system exacerbating savage inequalities of enslavement race and class John Fabian Witt author of American Contagions Olivarius s new perspectives on yellow fever immunocapitalism and the politics of acclimation will influence a generation of scholars to come on the intersections of racism slavery and public health The Lancet In antebellum New Orleans at the heart of America's slave and cotton kingdoms epidemics of yellow fever killed as many as 150 000 people With little understanding of the origins of the illness and meager public health infrastructure one's only hope if infected was to survive providing the lucky few with a mysterious form of immunity Repeated epidemics bolstered New Orleans's strict racial hierarchy by introducing another hierarchy a form of immunocapital as white survivors leveraged their immunity to pursue economic and political advancement while enslaved Blacks were relegated to the most grueling labor The question of health who has it who doesn't and why is always in part political Necropolis shows how powerful nineteenth century Orleanians constructed a society that capitalized on mortal risk and benefited from the chaos that ensued

studies in comparative history ever written The book was honored with the Ralph Waldo Emerson Prize the Merle Curti Award and a jury nomination for the Pulitzer Prize Now comes the sequel to that acclaimed work In Black Liberation George Fredrickson offers a fascinating account of how blacks in the United States and South Africa came to grips with the challenge of white supremacy He reveals a rich history not merely of parallel developments but of an intricate transatlantic web of influences and cross fertilization He begins with early moments of hope in both countries Reconstruction in the United States and the liberal colonialism of British Cape Colony when the promise of suffrage led educated black elites to fight for color blind equality A rising tide of racism and discrimination at the turn of the century however blunted their hopes and encouraged nationalist movements in both countries Fredrickson teases out the connections between movements and nations examining the transatlantic appeal of black religious nationalism known as Ethiopianism and the pan Africanism of Du Bois and Garvey He brings to vivid life the decades of struggle organizing and debate as blacks in the United States looked to Africa for identity and South Africans looked to America for new ideas and hope The book traces the rise of Communist influence in black movements in the two nations in the 1920s and 30s and the adoption of Gandhian nonviolent protest after World War II The story of India's struggle however was not to be repeated in either America or South Africa in one nation nonviolence revealed its limitations encouraging splits in the civil rights movement in the other it failed fostering an armed struggle against white supremacy Fredrickson brings the story up through the present exploring the divergence between African American identity politics and the nonracialism that has triumphed in South Africa In a career spanning thirty years George Fredrickson has won recognition as the leading scholar of the struggle over racial domination in the United States and South Africa In Black Liberation he provides the essential companion volume to his award winning White Supremacy telling the story of how blacks fought back on both sides of the Atlantic Another Dimension to the Black Diaspora Kenneth F.
