

Taxi And Limousine Inspector Nyc Gov

Kristin Tate

Taxi And Limousine Inspector Nyc Gov:

Wounded City Nancy Foner, 2005-08-25 New York has eight million deeply personal and unique stories of pain and perseverance from September 11 2001 But the toll of tragedy is greater than the anguish it inflicts on individuals communities suffer as well In **Wounded City** editor Nancy Foner brings together an accomplished group of scholars to document how a broad range of communities residential occupational ethnic and civic were affected and changed by the World Trade Center attacks Using survey data and in depth ethnographies the book offers sophisticated analysis and gives voice to the human experiences behind the summary statistics revealing how the nature of these communities shaped their response to the disaster Sociologists Philip Kasinitz Gregory Smithson and Binh Pok highlight the importance of physical space in the recovery process by comparing life after 9 11 in two neighborhoods close to ground zero Tribeca which is nestled close to the city's downtown and Battery Park City which is geographically and structurally separated from other sections of the city Melanie Hildebrandt looks at how social solidarity changed in a predominantly Irish middle class community that was struck twice with tragedy the loss of many residents on 9 11 and a deadly plane crash two months later Jennifer Bryan shows that in the face of hostility and hate crimes many Arab Muslims in Jersey City stressed their adherence to traditional Islam Contributor Karen Seeley interviews psychotherapists who faced the challenge of trying to help patients deal with a tragedy that they themselves were profoundly affected by Economist Daniel Beunza and sociologist David Stark paint a picture of organizational resilience as they detail how securities traders weathered successive crises after evacuating their downtown office and moving temporarily to New Jersey Francesca Polletta and Lesley Wood look at a hopeful side of a horrible tragedy civic involvement in town meetings and public deliberations to discuss what should be done to rebuild at ground zero and help New Yorkers create a better future in the footprints of disaster New Yorkers suffered tremendous losses on September 11 2001 thousands of lives billions of dollars the symbols of their skyline and their peace of mind But not lost in the rubble of the World Trade Center were the residential ethnic occupational and organizational communities that make up New York's rich mosaic **Wounded City** gives voice to some of those communities showing how they dealt with unforeseen circumstances that created or deepened divisions yet at the same brought them together in suffering and hope It is a unique look at the aftermath of a devastating day and the vitality of a diverse city A Russell Sage Foundation September 11 Initiative Volume **New York City** , Movement Nicole Gelinas, 2024-11-05 A gripping account of how the automobile has failed NYC and how mass transit and a revitalized streetscape are vital to its post pandemic recovery In 1969 as all students of New York City history think they have learned master builder Robert Moses lost his long battle to urbanist Jane Jacobs over his planned Lower Manhattan Expressway The ten lane elevated expressway would have sliced across SoHo and Little Italy demolishing historic buildings and displacing thousands of families and businesses Jacobs and her neighbors defeated Moses and as a result New York became the only major American city with no interstate highway running through

its core Like many global cities though New York had spent fifty years during the first half of the twentieth century trying and failing to tame its heavily populated landscape to fit the private automobile New York has now spent more than fifty years trying to undo those mistakes wresting back city space for people not cars Movement New York's Long War to Take Back Its Streets from the Car chronicles the earlier less known battles that preceded the cancellation of the Lower Manhattan Expressway Jacobs became an example for generations of urban planners but whose example did Jacobs emulate in an earlier victory that saved Washington Square Park Moses may serve handily as New York's uber villain now but who before him was responsible for destroying a critical part of New York's transit system A well respected urban writer who has focused on New York's transportation system for more than a decade author Nicole Gelinas resumes the story where Robert Caro's landmark The Power Broker ended Movement explores how in the half century leading up to the COVID 19 pandemic New York's re embracement of its mass transit system and a livable streetscape helped save the city Gelinas tackles the 1970s environmental movement the 1980s rebuilding of the subways and more contemporary battles from Mayor Bloomberg's push for more pedestrian plazas and bike lanes in the early 2000s to transportation advocates protests to prevent traffic deaths in the Mayor de Blasio era of the 2010s to how New York's stewardship of its streets and subways have played a critical role during the 2020 pandemic and subsequent recovery Introducing a cast of transportation heroes to rival Jane Jacobs Shirley Hayes Hazel Henderson Richard Ravitch Nilka Martell and puncturing the myth of Moses as New York's anti hero Movement explores how New York City has helped redefine what it means to be a global city not a place that is easy to drive through but a place where people can take transit walk and bike to work to school or just for fun

How Do I Tax Thee? Kristin Tate, 2018-03-20 Libertarian journalist Kristin Tate provides a look into the wild world of frivolous taxation aimed at educating members of her own generation in the evils of big government In How Do I Tax Thee libertarian commentator and rising media star Kristin Tate takes us on a tour of the ways the government bleeds us dry in innumerable daily transactions and at various stages of life We all know the government taxes our pay federal state and local taxes are withheld by employers as are social security payments But what about the many other ways the government drains money from our wallets Have you studied your cell phone bill Customers in New York State pay an average of 24.36% in federal state and local taxes on their wireless bills They're also charged for obscure services they didn't ask for and don't understand like a universal service fund fee an FCC compliance fee a line service fee and an emergency services fee These aren't taxes strictly speaking The government imposes these administrative and regulatory costs and your wireless provider passes them along to you But the effect is exactly the same What about your cable bill Your power bill Your water bill The cost of a gallon of gas a cab ride a hotel stay and a movie ticket are all inflated by hidden fees How much of what you pay at the pump the box office or the airport is really an indirect tax In a series of short pointed fact laden humorous chapters Tate exposes the vast government shakedown that consumes up to half of your income and also explains where these hidden fees and taxes

come from **Transport and Pandemic Experiences** Maria Attard,Corinne Mulley,2022-10-17 Transport and Pandemic Experiences discusses how the accumulated knowledge of the pandemic needs to be capitalised in our fight against climate change and helps to identify future research imperatives for better understanding and greater policy transferability **The Routledge Handbook of Public Transport** Corinne Mulley,John Nelson,Stephen Ison,2021-05-12 The Routledge Handbook of Public Transport is a reference work of chapters providing in depth examination of the current issues and future developments facing public transport Chapters in this book are dedicated to specific key topics identifying the challenges therein and pointing to emerging areas of research and concern The content is written by an international group of expert contributors and is enhanced through contributions from practitioners to deliver a broader perspective The Handbook deals with public transport policy context modal settings public transport environment public transport delivery issues smart card data for planning and the future of public transport This comprehensive reference work will be a vital source for academics researchers and transport practitioners in public transport management transport policy and transport planning

Advances in Spatial and Temporal Databases Michael Gertz,Matthias Renz,Xiaofang Zhou,Erik Hoel,Wei-Shinn Ku,Agnes Voisard,Chengyang Zhang,Haiquan Chen,Liang Tang,Yan Huang,Chang-Tien Lu,Siva Ravada,2017-08-07 This book constitutes the refereed proceedings of the 15th International Symposium on Spatial and Temporal Databases SSTD 2017 held in Arlington VA USA in August 2017 The 19 full papers presented together with 8 demo papers and 5 vision papers were carefully reviewed and selected from 90 submissions The papers are organized around the current research on concepts tools and techniques related to spatial and temporal databases **Wireless Algorithms, Systems, and Applications** Zhe Liu,Fan Wu,Sajal K. Das,2021-09-08 The three volume set constitutes the proceedings of the 16th International Conference on Wireless Algorithms Systems and Applications WASA 2021 which was held during June 25 27 2021 The conference took place in Nanjing China The 103 full and 57 short papers presented in these proceedings were carefully reviewed and selected from 315 submissions The contributions in Part II of the set are subdivided into the following topical sections Scheduling Security Data Center Networks and Cloud Computing Privacy Aware Computing Internet of Vehicles Visual Computing for IoT Mobile Ad Hoc Networks

Reinforcement Learning in the Ridesharing Marketplace Zhiwei (Tony) Qin,Xiaocheng Tang,Qingyang Li,Hongtu Zhu,Jieping Ye,2024-08-03 This book provides a comprehensive overview of reinforcement learning for ridesharing applications The authors first lay out the fundamentals of the ridesharing system architectures and review the basics of reinforcement learning including the major applicable algorithms The book describes the research problems associated with the various aspects of a ridesharing system and discusses the existing reinforcement learning approaches for solving them The authors survey the existing research on each problem and then examine specific case studies The book also includes a review of two of methods closely related to reinforcement learning approximate dynamic programming and model predictive control **Time Out New York** Editors of Time Out,2014-07-21 The 22nd edition of Time Out New York offers an

exhaustive overview of everything the city has to offer in terms of tourist attractions eating and drinking shopping clubs and the sights everything from pizza and bagels to shopping green It spotlights the city s hot new neighborhoods as well as the changing scene in the more established ones with walking tour itineraries that allow visitors to explore each neighborhood at the street level Comprehensive coverage of the city s incomparable arts and culture scene makes this an invaluable sourcebook for tourists and natives alike An extensive month by month calendar of events is included Escapes and excursions within relatively easy reach for day or overnight trips are also included

Smart Objects and Technologies for Social Goods Ivan Miguel Pires,Eftim Zdravevski,Nuno Cruz Garcia,2023-03-15 This book constitutes the refereed post conference proceedings of the 8th EAI International Conference on Smart Objects and Technologies for social Goods GOODTECHS 2022 held in Aveiro Portugal in November 16 18 2022 The 7 full papers presented were selected from 18 submissions and issue design implementation deployment operation and evaluation of smart objects and technologies for social good Social goods are products and services provided through private enterprises government or non profit institutions and are related to healthcare safety sports environment democracy computer science and human rights

Conceptual Modeling Alberto H. F. Laender,Barbara Pernici,Ee-Peng Lim,José Palazzo M. de Oliveira,2019-10-28 This book constitutes the refereed proceedings of the 38th International Conference on Conceptual Modeling ER 2019 held in Salvador Brazil in November 2019 The 22 full and 22 short papers presented together with 4 keynotes were carefully reviewed and selected from 142 submissions This events covers a wide range of topics covered in the following sessions conceptual modeling big data technology I process modeling and analysis query approaches big data technology II domain specific models I domain specific models II decision making complex systems modeling model unification big data technology III and requirements modeling

EarthTalk E Magazine,2009-02-24 From the authors of the leading environmental handbook Green Living the best of E s nationally syndicated Q A column EarthTalk Knowledge of environmental issues and sustainability is increasingly important as industrialization and climate change continue to wreak havoc on our ecosystems and our psyche As temperatures rise and icecaps shrink and storms lash our coastal areas into oblivion being smart about carbon footprints waste streams and consumer choices becomes increasingly important for all of us That s where EarthTalk comes in EarthTalk gathers together the best of readers questions on the environment and the best ways to live green and answers in a quick and easy guide for the average Joe or Jane Searching by subject or looking up questions in the index readers can learn everything from the difference between wild and farmed salmon to the pros and cons of nuclear power EarthTalk provides the essential tools and tips to living in harmony with the planet

Integration of Constraint Programming, Artificial Intelligence, and Operations Research Louis-Martin Rousseau,Kostas Stergiou,2019-05-28 This book constitutes the proceedings of the 16th International Conference on Integration of Constraint Programming Artificial Intelligence and Operations Research CPAIOR 2019 held in Thessaloniki Greece in June 2019 The 34 full papers presented together with 9 short papers were carefully

reviewed and selected from 94 submissions The conference brings together interested researchers from Constraint Programming CP Artificial Intelligence AI and Operations Research OR to present new techniques or applications and to provide an opportunity for researchers in one area to learn about techniques in the others A main objective of this conference series is also to give these researchers the opportunity to show how the integration of techniques from different fields can lead to interesting results on large and complex problems

Open Source Geospatial Science for Urban Studies Amin Mobasheri, 2020-09-07 This book is mainly focused on two themes transportation and smart city applications Open geospatial science and technology is an increasingly important paradigm that offers the opportunity to promote the democratization of geographical information the transparency of governments and institutions as well as social economic and urban opportunities During the past decade developments in the area of open geospatial data have greatly increased The open source GIS research community believes that combining free and open software open data as well as open standards leads to the creation of a sustainable ecosystem for accelerating new discoveries to help solve global cross disciplinary urban challenges The vision of this book is to enrich the existing literature on this topic and act one step towards more sustainable cities through employment of open source GIS solutions that are reproducible Various contributions are provided and practically implemented in several urban use cases Therefore apart from researchers lecturers and students in the geography urbanism domain crowdsourcing and VGI domain as well as open source GIS domain it is believed the specialists and mentors in municipalities and urban planning departments as well as professionals in private companies would be interested to read this book

Toward Responsible Innovation: Responsibility And Philosophy For A Humanely Sustainable Future Xavier Pavie, 2021-11-08 For fifty years innovations have taken on a new dimension the Internet DNA sequencing genomic manipulations advances in transhumanism nanotechnologies and much more These recent innovations are not without addressing new issues whose consequences are as important as irreversible The innovator of whom Steve Jobs and Mark Zuckerberg are emblematic contemporary figures appears as a personality as brilliant as he is destructive who aspires to change the world regardless of the violence that may ensue With this then emerges the need to establish responsible innovation in which the innovator should be accountable for his actions and review his position as a hero To establish this new ethic philosophy is a necessary recourse since it questions among other things the self control of the Stoics the prudence of Aristotle respect of Kant the will power of Nietzsche and the power of Foucault

The Cambridge Handbook of the Law of the Sharing Economy Nestor M. Davidson, Michèle Finck, John J. Infranca, 2018-11-22 This Handbook grapples conceptually and practically with what the sharing economy which includes entities ranging from large for profit firms like Airbnb Uber Lyft Taskrabbit and Upwork to smaller non profit collaborative initiatives means for law and how law in turn is shaping critical aspects of the sharing economy Featuring a diverse set of contributors from many academic disciplines and countries the book compiles the most important up to date research on the regulation of the sharing economy The first part

surveys the nature of the sharing economy explores the central challenge of balancing innovation and regulatory concerns and examines the institutions confronting these regulatory challenges and the second part turns to a series of specific regulatory domains including labor and employment law consumer protection tax and civil rights This groundbreaking work should be read by anyone interested in the dynamic relationship between law and the sharing economy **The Big Thirst** Charles Fishman,2011 Fishmen examines the passing of the golden age of water and reveals the shocking facts about how water scarcity will soon be a major factor **Faster, Smarter, Greener** Venkat Sumantran,Charles Fine,David Gonsalvez,2017-09-22 A call to redefine mobility so that it is connected heterogeneous intelligent and personalized as well as sustainable adaptable and city friendly The twentieth century was the century of the automobile the twenty first will see mobility dramatically re envisioned Automobiles altered cityscapes boosted economies and made personal mobility efficient and convenient for many We had a century long love affair with the car But today people are more attached to their smartphones than their cars Cars are not always the quickest mode of travel in cities and emissions from the rapidly growing number of cars threaten the planet This book by three experts from industry and academia envisions a new world of mobility that is connected heterogeneous intelligent and personalized the CHIP architecture The authors describe the changes that are coming City administrators are shifting from designing cities for cars to designing cities for people Nations and cities will increasingly employ targeted user fees and offer subsidies to nudge consumers toward more sustainable modes The sharing economy is coaxing many consumers to shift from being owners of assets to being users of services The auto industry is responding with connected cars that double as virtual travel assistants and by introducing autonomous driving The CHIP architecture embodies an integrated multimode mobility system that builds on ubiquitous connectivity electrified and autonomous vehicles and a marketplace open to innovation and entrepreneurship Consumers will exercise choice on the basis of user experience and efficiency aided by intelligent advisors accessible through their mobile devices An innovative mobility architecture reconfigured for this century is a social and economic necessity this book charts a course for achieving it *Progress in Artificial Intelligence* Paulo Moura Oliveira,Paulo Novais,Luís Paulo Reis,2019-08-31 This book constitutes the refereed proceedings of the 19th EPIA Conference on Artificial Intelligence EPIA 2019 held in Funchal Madeira Portugal in September 2019 The 119 revised full papers and 6 short papers presented were carefully reviewed and selected from a total of 252 submissions The papers are organized in 18 tracks devoted to the following topics AIEd Artificial Intelligence in Education AI4G Artificial Intelligence for Games AIoTA Artificial Intelligence and IoT in Agriculture AIL Artificial Intelligence and Law AIM Artificial Intelligence in Medicine AICPDES Artificial Intelligence in Cyber Physical and Distributed Embedded Systems AIPES Artificial Intelligence in Power and Energy Systems AITS Artificial Intelligence in Transportation Systems ALEA Artificial Life and Evolutionary Algorithms AmIA Ambient Intelligence and Affective Environments BAAI Business Applications of Artificial Intelligence GAI General AI IROBOT Intelligent Robotics KDBI Knowledge Discovery and Business
