Security certification is CompTIA's response to membership requests to develop a foundation level certification for security workers. The IT industry is in agreement that there is a need to better train staff and empower those tasked with designing and implementing information security. Security is an effort to meet this demand. The exam is under consideration by Microsoft as the baseline security certification for Microsoft's new security certification initiative. The Security Training Guide is a comprehensive resource for those preparing to take this exam, covering everything in a format that maps to the exam objectives. The book has been subjected to a rigorous technical review ensuring content is superior in both coverage and technical accuracy. The accompanying CD features PrepLogic™ Practice Tests Preview Edition. This product includes one complete PrepLogic Practice Test with approximately the same number of questions found on the actual vendor exam. Each question contains full detailed explanations of the correct and incorrect answers. The engine offers two study modes: Practice Test and Flash Review, full exam customization and a detailed score report.

Data-Driven Decision-Making for Business Claus Grand Bang, 2024-08-22. Research shows that companies that employ data driven decision making are more productive, have a higher market value and deliver higher returns for their shareholders. In this book, the reader will discover the history, theory and practice of data driven decision making, learning how organizations and individual managers alike can utilize its methods to avoid cognitive biases and improve confidence in their decisions. It argues that value does not come from data but from acting on data. Throughout the book, the reader will examine how to convert data to value through data driven decision making as well as how to create a strong foundation for such decision making within organizations. Covering topics such as strategy, culture, analysis and ethics, the text uses a collection of diverse and up to date case studies to convey insights which can be developed into future action. Simultaneously, the text works to bridge the gap between data specialists and businesspeople. Clear learning outcomes and chapter summaries ensure that key points are highlighted, enabling lecturers to easily align the text to their curriculums. *Data Driven Decision Making for Business* provides important reading for undergraduate and postgraduate students of business and data analytics programs as well as wider MBA classes. Chapters can also be used on a standalone basis, turning the book into a key reference work for students graduating into practitioners. The book is supported by online resources including PowerPoint slides for each chapter.

The Leadership Capital Index Dave Ulrich, 2015-10-19. This book provides a leadership capital index, a thorough way of assessing how the quality of a company's leadership impacts its value, e.g. like a Moody's index for leadership. It offers an alternative to the instinctive and subjective approaches people have been forced to take in the past.
