## 6th Grade Math I Can Statements:

*Going Gradeless, Grades 6-12* Elise Burns, Elise B Naramore, David Frangiosa, 2021-02-23 Grade reform and standards based grading SBG is a hotly debated issue in education As one high school administrator puts it Traditional letter grading is probably the biggest elephant in the room in regard to school reform We start grading at a young age and it becomes all about accumulating points and it's not about the learning anymore Dan Kelley principal of Smithfield High School Rhode Island When students can focus less on the score and more on the learning great things happen SBG is even more challenging in high school In this book the authors share their districts successes moving to alternate assessment methods that promote learning rather than solely achievement The proponents of grade reform highlight the arbitrary nature of grades the undue stress experienced by some learners and the potential interference in the process of learning On the other hand opponents reference the lack of accountability and a shift away from content knowledge that is perceived in many alternate assessment models This book outlines how to remove the negative impacts of grades while still maintaining a high level of accountability While the majority of other books in this space provide a rationale for why the shift is necessary these authors provide the classroom teacher's perspective and concrete examples of how these approaches can be developed and applied They provide sample assessments student work samples an accountability checklist a sample of their rubrics and a review of our collected data

Grading systems often reward on time task completion and penalize disorganization and bad behavior Despite our best intentions grades seem to reflect student compliance more than student learning and engagement In the process we inadvertently subvert the learning process After careful research and years of experiences with grading as a teacher and a parent Cathy Vatterott examines and debunks traditional practices and policies of grading in K 12 schools She offers a new paradigm for standards based grading that focuses on student mastery of content and gives concrete examples from elementary middle and high schools *Rethinking Grading* will show all educators how standards based grading can authentically reflect student progress and learning and significantly improve both teaching and learning Cathy Vatterott is an education professor and researcher at the University of Missouri St Louis a former middle school teacher and principal and a parent of a college graduate She has learned from her workshops that grading continues to be the most contentious part conjuring up the most intense emotions and heated disagreements Vatterott is also the author of the book *Rethinking Homework Best Practices That Support Diverse Needs* *Equity-Oriented Critical Curricula* Angela Miller-Hargis,Delane A. Bender-Slack,2023-02-13

Because literacy is never politically neutral it is our hope that readers of this text will understand the significance of creating learning environments that emphasize the relationship between power and literacy This book focuses attention on what can happen when teachers and students are empowered as they collaborate towards a common goal Designed to balance theory and praxis this book provides opportunities for teachers to begin conceiving of and building integrated literacy curricula that prioritizes the lived experiences and insights of their students rather than emphasizes decontextualized lists of facts to be memorized or skills to be obtained This book speaks to the needs of teacher candidates and practicing teachers who wish to engage more openly and fully with the current landscape of diverse learners biased educational practices and inequitable learning opportunities The objective is to provide a means by which hopeful educators can begin to face the challenges of diverse classrooms in order to promote social justice and equity literacy by reimagining and reshaping both policy and practice *Standards Driven Math: Combo Book: 7th Grade Math, Algebra I, Geometry I, Algebra II, Math Analysis, Calculus* Nathaniel Max Rock,2007-08
