Exciting Classrooms Frank Thoms,2015-12-08 Frank Thoms writes with passion to invite principals and teachers to make changes that will allow all students to succeed In this book he urges them to reconsider traditional practices in light of today's media driven culture and digitally wired students Exciting Classrooms is sensitive to the challenges schools face and is relentless in offering strategies to meet these challenges Schools must do better Rather than focus on improving test scores this book advocates that teachers teach to a child's whole symphony not only to one note If students only learn to succeed on bubble tests they will not have opportunities to discover their true potential Thoms sees the teaching process as a joint venture between teacher and student where the teacher brings learning to the student and at the same time brings the student to the learning This process demands at least as much listening as talking a new habit that teachers and principals need to learn **Elementary English Review** ,1926 SCC library has 1949 cur Catalog of Copyright Entries.
