

How the conditions within a country can
lead to a state of civil war has been
discussed in a number of studies.

Hypothesis

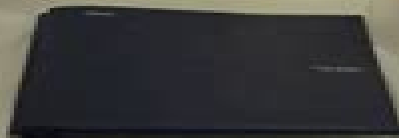

1. The hypothesis is that the relationship between the variables is positive. This means that as the independent variable increases, the dependent variable is expected to increase as well.

A photograph of a computer monitor displaying a document titled "Materials". The document contains several sections of text, likely related to materials science or engineering, though the specific details are difficult to discern due to the low resolution and angle of the photo. The monitor has a dark bezel and is placed on a light-colored surface.
