6th Edition Neonatal Resuscitation Textbook:

Textbook of Neonatal Resuscitation Jeanette Zaichkin, John Kattwinkel, Jane McGowan, 2011 The extensively revised and updated 6th edition of the Neonatal Resuscitation Program NRP textbook is designed in accord with the program's curriculum changes and sharpened focus on active hands-on learning. The text facilitates the newly recommended self-paced learning approach. Self-study is optimized to help students prepare for the mandatory online examination that replaces the traditional written test. It also complements the simulations and case-based scenarios at the heart of the new NRP. Content updates throughout the text reflect the 2010 American Academy of Pediatrics AAP American Heart Association Guidelines for Neonatal Resuscitation. Must-know new material includes the latest recommendations across key areas of change including: Revisions in the NRP flow diagram; elimination of evaluation of amniotic fluid in initial rapid assessment; use of supplemental oxygen during neonatal resuscitation; use of pulse oximetry; chest compression procedures. Nrp American Heart Association, 2011 The new 6th edition textbook with accompanying DVD reflects the 2010 American Academy of Pediatrics and American Heart Association Guidelines for Neonatal Resuscitation. This textbook with extensively updated Neonatal Resuscitation Program materials represents a shift in approach to the education process, eliminating the slide and lecture format and emphasizing a hands-on interactive simulation-based learning environment.
