

## Is It an Independent Clause or a Dependent Clause?

An independent, or coordinate, clause is a clause that expresses a complete thought and can stand alone.

A dependent, or subordinate, clause is a clause that does not express a complete thought and cannot stand alone.

**Curt called his father who was still at work.**

In the example *Curt called his father* is an independent clause. It would be a complete sentence without anything else added to it. The clause *who was still at work* is a dependent clause. It does not express a complete thought and is not a complete sentence.

Below are sentences with a clause underlined. In the blank below the sentence, write whether the underlined clause is independent or dependent.
