Burn Fat Fast is quite simply the easiest, healthiest and most effective way to lose weight. Alternate day dieting which involves taking in a very low amount of calories on alternate days is all the rage. This diet takes it to a whole new level. In this book Patrick Holford outlines how by combining elements of alternate day fasting with a low glycemic load (GL) diet you can lose fat fast without going hungry or compromising your health. For those new to the low GL diet it is a way to keep your blood sugar even. Why do this? Because if your blood sugar level resembles a rollercoaster ride you'll have a lot of insulin in your system and insulin is the fat storing hormone. In Burn Fat Fast you'll find simple, easy to follow guidelines on how the diet works. An outline of what to eat and what to avoid on both phases of the diet. Guidance on fitting the diet into your lifestyle. A short, highly effective fat burning exercise routine developed by former Gladiator and Olympic athlete Kate Staples. And if you need any more encouragement consider this as well as encouraging the storage of fat. Insulin promotes disease and ageing so by combining a low GL diet with alternate day fasting you will not only lose fat fast but also improve your health and longevity.
